

RESOLUTION NO. 91 - 144

WHEREAS, the Director of Solid Waste of St. Johns County is responsible for Tillman Ridge Landfill, and

WHEREAS, the Director of Solid Waste of St. Johns County is responsible for the testing of leachate prior to entry into the Waste Water Treatment Plant, and

WHEREAS, the Leachate Toxicity Test System comprised of a Microtox Model 500 Analyzer, Data Collection & Reduction Package, and Microtox Reagent Starter Pack is required by the St. Johns County Utility Department for timely chemical sampling to measure or detect toxicity of leachate, prior to disposal into County Waste Water Plants, and

WHEREAS, the Leachate Toxicity Test System is the only commercially available system worldwide, the Microbics Corporation is the sole source manufacturer of the System and associated accessories and reagents, and

NOW THEREFORE, BE IT RESOLVED, the Board of County Commissioners recognizes the sole source requirement for the Leachate Toxicity Test System, and authorizes the County Administrator to purchase said system and accessories from Microbics Corporation, as provided by Florida Law 81-843 para. (d) when goods, supplies or materials are available from only one source.

ADOPTED this 24th day of September, 1991 by the St. Johns County Board of Commissioners.

BOARD OF COUNTY COMMISSIONERS
OF ST. JOHNS COUNTY, FLORIDA
