Each lot will be a minimum of 12,000 square feet and have a minimum width of eighty (80) feet in the buildable portion. The residential structures will be set back at least twenty-five (25) feet from the road right-of-way. The rear yard setback will be a minimum of twenty (20) feet. The side lot setbacks will be a minimum of ten (10) feet from each side. There will be a minimum of twenty (20) feet between residential structures. There will be a non-access buffer for lots adjacent to Plantation Circle South.

Visual and acoustical privacy of each dwelling unit will be assured primarily through landscaping. Fences, walks, or landscaping will be provided for the protection and aesthetic enhancement of the property.

8-4-8 Community Facilities

- a. None of the utility facilities serving the Property are proposed for dedication to St. Johns County; therefore, the provisions of Subparagraph "a" are inapplicable.
- b. All requirements for off-street parking and loading set forth in Article 9 of the St. Johns County Zoning Ordinance are addressed specifically below:

9-1-1 Drainage

The general drainage plan for the Property so as to prevent damage to abutting parcels and streets is graphically depicted on the Final Development Plan as easements for utilities and drainage.

Lighting within the Property will meet or exceed minimum lumens of 100 watt high-pressure sodium fixture lights affixed 20 feet above the roadway and 300 feet on the center.

9-1-7 Screening

This provision is not applicable since there will be no parking space for ten or more vehicles in any one location.

Not applicable since the only use will be residential.

- c. The Final Development Plan illustrates the anticipated traffic flow pattern. Sufficient space has been allowed to permit access for fire fighting equipment, furniture moving vans, fuel trucks, refuse collection, deliveries, and water and sewer. The locations of fire hydrants, as well as lines serving the Property are also depicted on the Final Development Plan (Exhibit A).
- d. All utilities serving the Property, including telephone, power, cable television, sewer lines, and water lines, will be installed underground.
- e. Specifications for the drives and parking areas serving the Property are depicted on the Final Development Plan, which are intended to conform to County criteria contained within the St. Johns County Paving and Drainage Ordinance 86-4.
