POLICY FOR THE NAMING OF ALL PUBLIC FACILITIES

The following is the policy for the naming of public facilities:

1. Consideration should be given to names describing the public facility, its geographic location, and its historical or ecological relationship indigenous to the region, making it easier for persons outside the neighborhood to identify the facility.
2. Proposals to name facilities after persons are restricted to those persons who are deceased. A waiting period of no less than twelve months from the death will be maintained. The term "memorial" should not be used, as that term generally becomes common name and detracts from the intent of naming the facility after the individual.
3. Donors of land and/or large sums of money will be considered in the naming of a resulting public facility or integral parts thereof, if possible. Donations should be sufficient to pay for acquisition or development or maintenance in perpetuity.
4. Selection of a name to a section within a public facility, which is different from the name of the overall property will follow the guidelines as stated.
5. When an existing name of a facility has been determined to be inappropriate, confusing, or ineffectual a new name may be selected following the guidelines as stated.
6. The process of the naming of facilities will be through the appropriate advisory board, if applicable. All citizens may submit names to the board at the meeting designated for such items. Proper notification of the meeting will be for a two week period before the stated meeting date. All names will be sent to the Board of County Commissioners for final selection following the guidelines as stated above.
