14.00 Miscellaneous Provisions:

14.10 Environmental Pollution: Execution of this Joint Participation Agreement constitutes a certification by the Agency that the project will be carried out in conformance with all applicable environmental regulations including the securing of any applicable permits. The Agency will be solely responsible for any liability in the event of non-compliance with applicable environmental regulations, including the securing of any applicable permits, and will reimburse the Department for any loss incurred in connection therewith.

14.20 Department Not Obligated to Third Parties: The Department shall not be obligated or liable hereunder to any party other than the Agency.

14.30 When Rights and Remedies Not Waived: In no event shall the making by the Department of any payment to the Agency constitute or be construed as a waiver by the Department of any breach of covenant or any default which may then exist, on the part of the Agency, and the making of such payment by the Department while any such breach or default shall exist shall in no way impair or prejudice any right or remedy available to the Department with respect to such breach or default.

14.40 How Agreement Is Affected by Provisions Being Held Invalid: If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected. In such an instance the remainder would then continue to conform to the terms and requirements of applicable law.

14.50 Bonus or Commission: By execution of the Agreement the Agency represents that it has not paid and, also, agrees not to pay, any bonus or commission for the purpose of obtaining an approval of its application for the financing hereunder.

14.60 State or Territorial Law: Nothing in the Agreement shall require the Agency to observe or enforce compliance with any provision thereof, perform any other act or do any other thing in contravention of any applicable State law: Provided, that if any of the provisions of the Agreement violate any applicable State law, the Agency will at once notify the Department in writing in order that appropriate changes and modifications may be made by the Department and the Agency to the end that the Agency may proceed as soon as possible with the project.

14.70 Use and Maintenance of Project Facilities and Equipment: The Agency agrees that the project facilities and equipment will be used by the Agency to provide or support public transportation for the period of the useful life of such facilities and equipment as determined in accordance with general accounting principles and approved by the Department. The Agency further agrees to maintain the project facilities and equipment in good working order for the useful life of said facilities or equipment.

14.71 Property Records: The Agency agrees to maintain property records, conduct physical inventories and develop control systems as required by 49 CFR Part 18, when applicable.

14.80 Disposal of Project Facilities or Equipment: If the Agency disposes of any project facility or equipment during its useful life for any purpose except its replacement with like facility or equipment for public transportation use, the Agency will comply with the terms of 49 CFR Part 18 relating to property management standards. The Agency agrees to remit to the Department a proportional amount of the proceeds from the disposal of the facility or equipment. Said proportional amount shall be determined on the basis of the ratio of the Department financing of the facility or equipment as provided in this Agreement.

14.90 Contractual Indemnity: To the extent provided by law, the Agency shall indemnify, defend, and hold harmless the Department and all of its officers, agents, and employees from any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the Agency, its agents, or employees, during the performance of the Agreement, except that neither the Agency, its agents, or its employees will be liable under this paragraph for any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the Department or any of its officers, agents, or employees during the performance of the Agreement.

When the Department receives a notice of claim for damages that may have been caused by the Agency in the performance of services required under this Agreement, the Department will immediately forward the claim to the Agency. The Agency and the Department will evaluate the claim and report their findings to each other within fourteen (14) working days and will jointly discuss options in defending the claim. After reviewing the claim, the Department will determine whether to require the participation of the Agency in the defense of the claim or to require that the Agency defend the Department in such claim as described in this section. The Department's failure to promptly notify the Agency of a claim shall not act as a waiver of any right herein to require the participation in or defense of the claim by Agency. The Department and the Agency will each pay its own expenses for the evaluation, settlement negotiations, and trial, if any. However, if only one party participates in the defense of the claim at trial, that party is responsible for all expenses at trial.

15.00 Plans and Specifications: In the event that this Agreement involves the purchasing of capital equipment or the constructing and equipping of facilities, the Agency shall submit to the Department for approval all appropriate plans and specifications covering the project. After resolution of these comments and recommendations to the Department's satisfaction, the Department will issue to the Agency written approval with said remainder of the project. Failure to obtain this written approval shall be sufficient cause for nonpayment by the Department as provided in 8.23.

16.00 Project Completion, Agency Certification: The Agency will certify in writing on or attached to the final invoice, that the project was completed in accordance with applicable plans and specifications, is in place on the Agency facility, that adequate title is in the Agency and that the project is accepted by the Agency as suitable for the intended purpose.

17.00 Appropriation of Funds:

17.10 The State of Florida's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature.

17.20 Multi-Year Commitment: In the event this Agreement is in excess of \$25,000 and has a term for a period of more than one year, the provisions of Chapter 339.135(6)(a), F.S., are hereby incorporated: "(a) The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of 25,000 dollars and which have a term for a period of more than 1 year."

18.00 Expiration of Agreement: The Agency agrees to complete the project on or before December 31, 2008. If the Agency does not complete the project within this time period, this Agreement will expire unless an extension of the time period is requested by the Agency and granted in writing by the District Secretary. Expiration of this Agreement will be considered termination of the project and the procedure established in Section 9.00 of this Agreement shall be initiated.

18.10 Final Invoice: The Agency must submit the final invoice on this project to the Department within 120 days after the expiration of this Agreement. Invoices submitted after the 120 day time period will not be paid.

If any funds other than federal appropriated funds have been paid by the Agency to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Joint Participation Agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

The Agency shall require that the language of this section be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

21.20 State: No funds received pursuant to this contract may be expended for lobbying the Legislature or a state agency.

22.00 Vendors Rights: Vendors (in this document identified as Agency) providing goods and services to the Department should be aware of the following time frames. Upon receipt, the Department has five (5) working days to inspect and approve the goods and services unless the bid specifications, purchase order or contract specifies otherwise. The Department has 20 days to deliver a request for payment (voucher) to the Department of Financial Services. The 20 days are measured from the latter of the date the invoice is received or the goods or services are received, inspected and approved.

If a payment is not available within 40 days after receipt of the invoice and receipt, inspection and approval of goods and services, a separate interest penalty in accordance with Section 215.422(3)(b), F.S. will be due and payable, in addition to the invoice amount to the Agency. The interest penalty provision applies after a 35 day time period to health care providers, as defined by rule. Interest penalties of less than one (1) dollar will not be enforced unless the Agency requests payment. Invoices which have to be returned to an Agency because of vendor preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the Department.

A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for Agencies who may be experiencing problems in obtaining timely payment(s) from the Department. The Vendor Ombudsman may be contacted at (850) 410-9724 or by calling the Department of Financial Services Hotline, 1-800-848-3792.

REF: Chapter 341.052 F.S.

The Department shall provide block grant funds for eligible capital and operating costs of public bus transit and local public fixed guideway projects. Eligibility of this Agency to receive grant funding is provided in Sec. 341.052(1) F.S., and Section 9 and 18 of the Federal Transit Act, 49 U.S.C. 1607a, and 49 U.S.C. 1614 respectively.

Eligible transit capital costs means any costs that would be defined as capital costs by the Federal Transit Administration.

Eligible transit operating costs are the total administrative, management, and operation costs directly incident to the provision of public bus transit services, **excluding** any depreciation or amortization of capital assets.

Block grant funds shall not exceed local revenue during the term of this agreement.

(Local revenue is defined as the sum of money received from local government entities to assist in paying transit operation costs, including tax funds, and revenue earned from fare box receipts, charter service, contract service, express service and non - transportation activities.)

Block grant funds shall not supplant local tax revenues made available for operations in the year immediately preceding this agreement.

State participation in eligible public transit operating costs may not exceed fifty (50) percent of such costs or an amount equal to the total revenue, excluding farebox, charter, and advertising revenue and federal funds, received by the provider for operating costs, whichever amount is less.

The Agency shall require the independent auditor, retained to perform the audit as required by the Single Audit Act of 1984, to specifically test and certify that these limitations (...funds shall not exceed local revenue...funds shall not be expended for depreciation or amortization of capital assets...funds shall not supplant local tax revenues made available for operations in the previous year) of the block grant program as delineated in Chapter 341.052 F.S., have been adhered to.

The Agency shall provide the Department with two (2) copies of its most current adopted budget together with two (2) copies of the Section 15 report at the same time the Section 15 report is submitted to the Federal Transit Administration or by March 1, whichever is earlier. Unless the adopted budget uses a format consistent with the Section 15 report, the copy provided to the Department will indicate how the projections for total local revenue, local tax revenue made available for operations, and depreciation and amortization costs, as they will appear in the Section 15 report, can be identified.

The Agency shall publish in the local newspaper of its area, in the format prescribed by the Department, the productivity and performance measures established for the year. This report shall be approved by the Department of Transportation prior to its publication. This report shall be submitted to the Department no later than March 15 each year, and published either by May 1, or no later than twenty eight (28) calendar days of the Department's written approval of the report. The Agency shall furnish an affidavit of publication to the Department within twenty eight (28) calendar days of publication.

The Agency shall submit a Transit Development Plan to the Department by July 1 each year.

(A Transit Development Plan (TDP) is a locally adopted document, addressing a minimum five year time frame. It is prepared in cooperation with the appropriate Metropolitan Planning Organization, is consistent with the applicable approved local government comprehensive plan and with the appropriate comprehensive (long range) transportation plan and supports the biennial element of the Transportation Improvement Program. The TDP includes an assessment of the need for transit services in the local area, identifies the local transit policies, existing services and proposed service improvements, capital and operating costs of the proposed services, existing and proposed sources of funding and a staged implementation plan. A TDP is updated annually.)

A TDP shall comply with the following at a minimum.

1. The TDP shall identify and list community goals and policies with respect to transportation and land use in general and specifically to transit service.
2. The TDP shall identify and quantify the community's need for transit service using demographic, socioeconomic, land use, transportation and transit data as appropriate. There shall be an opportunity for the public to express the need for transit service improvements, such as but not limited to; Citizens Advisory Committees and workshops.
3. The TDP shall include an analysis of the service currently provided in the community by public and private transit service providers in terms of quality and quantity of service. The TDP shall present an analysis of any variation between the need identified and the service provided and present alternative methods of addressing any deficiencies (and the costs and benefits of each). The process for selecting an alternative method implementation shall include an opportunity for public participation.

4. The TDP shall present a five year program for implementing the alternative selected. The five year program shall include: maps indicating areas served and the type and level of service to be provided, a monitoring program to track performance measures, a five year financial plan listing operating and capital expenses and anticipated revenues by source and a list of projects or services for which funding has not been identified. The last three years of the program may be presented with less detail than the first two years.
5. The TDP shall not be in conflict with the approved local comprehensive plan and the comprehensive (long range) transportation plan.
6. The TDP is to be reviewed, revised as necessary and adopted annually and submitted to the Department by July 1 of each year. The annual review and revision may be limited to refinements and extensions of the five year program. Major updates to be completed every third year, shall include all elements of a TDP as defined herein.

CSFA Fiscal Year 2006-2007

CSFA Number: 55.010

State Project Title: PUBLIC TRANSIT BLOCK GRANT PROGRAM

Agency: Department of Transportation

Program Objectives: The Public Transit Block Grant Program was enacted by the Florida Legislature to provide a stable source of funding for public transit. Block grant funds are to be used for eligible capital and operating costs of public transportation providers and transit service development and transit corridor projects. (FDOT Procedure Topic Number 725-030-030-f)

Program Procedures: Public Transit Block Grant Program funds are to be awarded to those public transit providers eligible to receive funding from the Federal Transit Administration's Section 5307 and 5311 programs and to Community Transportation Coordinators (CTC). A CTC is a transportation entity so designated by the Florida Commission for the Transportation Disadvantaged (CTD) as provided for in Chapter 427, Florida Statutes, to serve the transportation disadvantaged population within a designated service area. The FDOT will distribute 85 percent of the funds to Section 5307 providers and to Section 5311 providers who are not CTC as defined in this procedure. The CTD will distribute 15 percent of the funds to CTCs according to their own procedures. (FDOT Procedure Topic Number 725-030-030-f, Section 1.1)

Federal Transit Administration's Section 5307 Program funds may be granted to public agencies in urbanized areas with a population of 50,000 or more. Such an agency becomes eligible to receive block grant funds when the annual element of its Transportation Improvement Program contains a block grant project. (FDOT Procedure Topic Number 725-030-030-f)

Federal Transit Administration's Section 5311 Program funds may be granted for the purpose of providing public transportation outside the urbanized area. (FDOT Procedure Topic Number 725-030-030-f)

Compliance Requirement: In developing audit procedures to test compliance with the requirements for a state project, the auditor should first look to Part Two, Matrix of Compliance Requirements, to identify which of the 10 types of compliance requirements described in Part Three of the Compliance Supplement are applicable and then look to Parts Three and Four for the details of the requirements.

Activities Allowed: Block grant funds may be used for eligible capital and operating costs of public transit providers. Funds may also be used for transit service development and transit corridor projects. Projects shall be consistent with applicable approved local government comprehensive plans. Local tax revenue made available for operating costs shall not be

supplanted by block grant funds. (FDOT Procedure Topic Number 725-030-030-f, Section 1.2 and 1.3)

All projects must be consistent, to the maximum extent feasible, with the approved local government comprehensive plans of the units of local government in which the project is located. (Section 341.052(2), (c), Florida Statutes)

If an audit reveals that an eligible provider expended block grant funds on unauthorized uses, the provider must repay to FDOT an amount equal to funds expended for unauthorized uses. (Section 341.052(7), (c), Florida Statutes)

Allowable Costs: Cost for which public transit block grant program funds may be expended include:

- 1) Cost of public bus transit and local public fixed guideway capital projects.
- 2) Costs of public bus transit service development and transit corridor projects. Whenever block grant funds are used for a service development project or a transit corridor project, the use of such funds is governed by Section 341.051, Florida Statutes. Local transit service development projects and transit corridor projects currently operating under contract with FDOT shall continue to receive state funds according to the contract until such time as the contract expires. Transit corridor projects, wholly within one county, meeting or exceeding performance criteria as described in the contract shall be continued by the transit provider at the same or higher level of service until such time as FDOT, the Metropolitan Planning Organization and the service provider agree to discontinue the service. The provider may not increase fare for service in transit corridor projects wholly within one county without the consent of FDOT.
- 3) Cost of public bus transit operations.
(Section 341.052(2), Florida Statutes)
