In consideration of the mutual promises contained herein, the County and the Contractor agree as follows:

**ARTICLE 1 – DURATION and EXTENSION**

This Agreement shall become effective upon the date of execution by all parties, shall be in effect for an initial contract term of three (3) calendar years with one (1) two-year renewal option, providing satisfactory performance has been maintained by the Contractor, and availability of funding as detailed on Exhibit "B". While this Agreement may be renewed as stated in this Article, it is expressly noted that the County is under no obligation to extend this Contract Agreement. It is further expressly understood that the option of extension is exercisable only by the County, and only upon the County's determination that the Contractor satisfactorily performed the Services noted in the Contract Documents.

**ARTICLE 2 - ENUMERATION OF CONTRACT DOCUMENTS**

The term "Contract Documents" shall include all Bid Documents and any addenda/exhibits thereto; all Specifications; this Agreement, any duly executed amendments, addenda, and/or exhibits hereto; and any and all Change Orders.

**ARTICLE 3 – SERVICES**

The Contractor's responsibility under this Agreement is to provide any and all labor, materials, equipment, transportation, and supervision necessary to perform maintenance, service, repairs, emergency repairs and emergency services on the County's emergency power generating systems from St. Johns County facilities, in accordance with Bid No: 18-73 and as otherwise provided in the Contract Documents.

Services provided by the Contractor shall be under the general direction of St. Johns County Purchasing Department or other authorized County designee, who shall act as the County's representative throughout the duration of this Contract Agreement.

**ARTICLE 4 – SCHEDULE**

The Contractor shall perform the required Countywide Generator Maintenance & Services as needed by St. Johns County Departments. A schedule for the delivery of products and supporting services to be performed for all annual and quarterly routine maintenance, tests and repairs shall be conducted during normal business hours, Monday through Friday, between 8:00am and 5:00pm. To arrange for an appointment to perform service at a particular facility, the Contractor must contact the assigned Property Manager or his/her designee at the facility with a minimum of forty eight (48) hours advance notice. The Contractor shall complete all required inspections, maintenance testing and reports within ten (10) consecutive calendar days of scheduled service specified in this Contract.

The list of equipment on the Generator List is attached hereto as Exhibit "C".

**ARTICLE 5 – COMPENSATION/BILLING/INVOICES**

- A. The County shall compensate the Contractor based upon the pricing detailed on Exhibit "A-1 Quarterly & Annual Price per Unit List" and Exhibit "A-2 Availability of Units" attached here to, as submitted in the proposal and accepted by the County. The maximum amount available as compensation to Contractor under this Contract Agreement shall not exceed the annual amount budgeted by St. Johns County Departments for Services satisfactorily performed in accordance with the Contract Documents.
- B. It is strictly understood that Contractor is not entitled to the above-referenced amount of compensation. Rather, Contractor's compensation is based upon Contractor's adhering to the Scope of Work, detailed in this Agreement. As such, the Contractor's compensation is dependent upon satisfactory completion and delivery of all work product and deliverables noted in the Scope of Work, and detailed in this Agreement.

- C. The Contractor shall bill the County for services satisfactorily performed, and materials satisfactorily delivered on a monthly basis. The signature of the Contractor's authorized representative on the submitted invoice shall constitute the Contractor's certification to the County that:
1. The Contractor has billed the County for all services rendered by it and any of its sub-contractors or materials suppliers through the date of the invoice;
  2. As of the date of the invoice, no other outstanding amounts are due from the County to the Contractor for services rendered;
  3. The reimbursable expenses, if any, have been reasonably incurred; and
  4. The amount requested is currently due and owing.

The County may return a bill/invoice from the Contractor, and request additional documentation/information. Under such circumstances, the timeframe for payment will be extended by the time necessary to receive a verified bill/invoice.
- E. The Contractor's acceptance of the County's payment of an invoiced amount shall release the County from any claim by the Contractor, or by the Contractor's Contractors or sub-Contractors, for work performed but not invoiced during the time period indicated on the invoice for which payment was issued.
- F. Unless otherwise notified, bills/invoices should be delivered to:
- St. Johns County Building Operations Department  
ATTN: Katie Diaz  
500 San Sebastian View  
St. Augustine, FL 32084
- G. **FINAL INVOICE:** In order for the County and the Contractor to reconcile/close their books and records, the Contractor shall clearly indicate "Final Invoice" on the Contractor's final bill/invoice to the County. Such indication establishes that all services have been satisfactorily performed and that all charges and costs have been invoiced to the County and that there is no further Work to be performed under this Agreement.

**ARTICLE 6 – TRUTH-IN-NEGOTIATION CERTIFICATE**

The signing of this Agreement by the Contractor shall act as the execution of a truth-in-negotiation certificate certifying that wage rates and other factual unit costs supporting the compensation are accurate, complete, and current as of the date of this Agreement.

The original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the County determines the contract price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such contract adjustments shall be made within one (1) year following the end of the Agreement.

**ARTICLE 9 – NOTICE OF DEFAULT/RIGHT TO CURE**

- A. Should the County fail to perform (default) under the terms of this Agreement, then the Contractor shall provide written notice to the County, which such notice shall include a timeframe of no fewer than seven (7) business days in which to cure the default. Failure to cure the default within the timeframe provided in the notice of default (or any such amount of time as mutually agreed to by the parties in writing), shall constitute cause for termination of this Agreement.

- B. Should the Contractor fail to perform (default) under the terms of this Agreement, then the County shall provide written notice to the Contractor, which such notice shall include a timeframe of no fewer than five (5) calendar days in which to cure the default. Pursuant to the requirements of Section 129.07, Florida Statutes, payment made under this Agreement shall not exceed the amount appropriate in the County's budget for such purpose in that fiscal year. Nothing in this Agreement shall create any obligation on the part of the Board of County Commissioners to appropriate such funds for the payment of services provided under this Agreement during any given

County fiscal year. Moreover, it is expressly noted that the Contractor cannot demand that the County provide any such funds in any given County Fiscal Year.

**ARTICLE 14 - INSURANCE**

**FEMA PUBLIC ASSISTANCE PROGRAM REQUIRED CONTRACT CLAUSES**

**1. Equal Employment Opportunity.**

If this contract meets the definition of a "federally assisted construction contract" as provided in 41 C.F.R. § 60-1.3, the following shall apply to the contractor's performance under this contract:

- a. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.
- b. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.
- c. The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- d. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- e. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- f. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- g. The contractor will include the portion of the sentence immediately preceding paragraph (a) and the provisions of paragraphs (a) through (g) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

For the purposes of this section, "federally assisted construction contract" means any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the

Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

For the purposes of this section, "construction work" means the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

- e. In the event of any violation of the clause set forth in paragraph (d) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (d) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (d) of this section.
- f. The County shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (e) of this section.
- g. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (c) through (f) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (c) through (f) of this section.

CONFLICT OF INTEREST DISCLOSURE FORM**

Project Number/Description: **Bid No: 18-73; Countywide Generator Maintenance and Services**

The term "conflict of interest" refers to situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting a Contractor's/contractor's professional judgment in completing work for the benefit of St. Johns County ("County"). The bias such conflicts could conceivably impart may inappropriately affect the goals, processes, methods of analysis or outcomes desired by the County.

Consultants/Contractors are expected to safeguard their ability to make objective, fair, and impartial decisions when performing work for the benefit of the County. Consultants/Contractors, therefore must there avoid situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting the Consultant's/contractor's professional judgement when completing work for the benefit of the County.

The mere appearance of a conflict may be as serious and potentially damaging as an actual distortion of goals, processes, methods of analysis or outcomes. Reports of conflicts based upon appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

It is expressly understood that failure to disclose conflicts of interest as described herein may result in immediate disqualification from evaluation or immediate termination from work for the County.

Please check the appropriate statement:

GOVERNMENT-WIDE DEBARMENT AND SUSPENSION (NONPROCUREMENT)

49 CFR Part 29

Executive Order 12549

**Applicability to Contracts**

Executive Order 12549, as implemented by 49 CFR Part 29, prohibits FTA recipients and sub-recipients from contracting for goods and services from organizations that have been suspended or debarred from receiving Federally-assisted contracts. As part of their applications each year, recipients are required to submit a certification to the effect that they will not enter into contracts over \$100,000 with suspended or debarred contractors and that they will require their contractors (and their subcontractors) to make the same certification to them.

**Flow Down**

CONTRACTOR's are required to pass this requirement on to subcontractors seeking subcontracts over \$100,000. Thus, the terms "lower tier covered participant" and "lower tier covered transaction" include both contractors and subcontractors and contracts and subcontracts over \$100,000.

The CONTRACTOR certifies to the best of its knowledge and belief, that it and its principals:

1. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency,
2. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction, violation of Federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
3. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2) of this certification; and
4. Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. (If the primary participant (applicant for an FTA grant, or cooperative agreement, or potential third party contractor) is unable to certify to any of the statements in this certification, the participant shall attach an explanation to this certification.)

THE CONTRACTOR Ring Power Corporation CERTIFIES OR AFFIRMS THE TRUTHFULNESS AND ACCURACY OF THE CONTENTS OF THE STATEMENTS SUBMITTED ON OR WITH THIS CERTIFICATION AND UNDERSTANDS THE PROVISIONS APPLICABLE THERETO.

the Bidder refuse to enter into such Contract or fail to furnish such bonds to the Owner, if required, the amount of the Bid Security shall be forfeited, not as penalty, but as liquidated damages.

A Bid Security in the form of a certified or cashier's check must be made payable to the Board of County Commissioners of St. Johns County. Bidders are not required to submit Attachment "B" – Certificate as to Corporate Principal, or the Bid Bond forms provided herein if submitting a Bid Security in the form of a certified or cashier's check.

### **BID POSTPONEMENT/CANCELLATION**

The County may re-advertise this Bid; postpone or cancel, at any time, this Bid process; or waive any irregularities in this Bid or in the proposals received as a result of this Bid.

### **MODIFICATION OR WITHDRAWAL OF BID**

A Bid may not be modified, withdrawn or canceled by the Bidder during the stipulated time period following the time and date designated for the receipt of Bids, and Bidder so agrees in submitting his Bid.

Prior to time and date designated for receipt of Bids, a Bid submitted early may be modified or withdrawn only by notice to the party receiving Bids at the place and prior to the time designated for receipt of Bids.

Such notice shall be in writing over the signature of the Bidder. If by telephone, written confirmation over the signature of Bidder must be mailed and postmarked on or before the date and time set for receipt of Bids; it shall be so worded as not to reveal the amount of the original Bid.

Withdrawn Bids may be resubmitted up to the time designated for the receipt of Bids provided that they are then fully in conformance with these Instructions to Bidders.

### **COSTS INCURRED BY BIDDERS**

All expenses involved with the preparation and submission of bids to the County, or any work performed in connection therewith, shall be borne by the Bidder(s). No rights of ownership will be conferred until title of the property is transferred to the successful bidder. All fees for copying and reproduction services for items listed herein are nonrefundable.

### **CONSIDERATION OF BIDS**

**Opening of Bids:** Unless stated otherwise in an Addendum to the Advertisement/Notice to Bidders, the properly identified Bids received on time will be opened publicly as specified in the Advertisement and a tabulation of the Total Annual amounts will be made available to Bidders. The Bid Tabulation will be posted on the Purchasing Department bulletin board for seventy two (72) hours.

Any bidder, proposer or person substantially and adversely affected by an intended decision or by an term, condition,

procedure or specification with respect to any bid, invitation, solicitation of proposals or requests for qualifications, shall file with the Purchasing Department for St. Johns County, a written notice of intent to protest no later than seventy two (72) hours (excluding Saturdays, Sundays and legal holidays for employees of St. Johns County) after the posting either electronically or by other means of the notice of intended action, not of intended award, bid tabulation, publication by posting electronically or by other means of a procedure, specification, term or condition which the person intends to protest, or the right to protest such matter shall be waived. The protest procedures may be obtained from the Purchasing Department and are included in the Owner's Purchasing Manual. All of the terms and conditions of the Owner Purchasing Manual are incorporated by reference and are fully binding.

*Vendors shall not contact, lobby, or otherwise communicate with any SJC employee, including any member of the Board of County Commissioners, other than the above referenced individual from the point of advertisement of the Bid until contract(s) are executed by all parties, per SJC Purchasing Code 304.6.5 "Procedures Concerning Lobbying". According to SJC policy, any such communication shall disqualify the vendor, contractor, or Contractor from responding to the subject invitation to bid, request for quote, request for proposal, invitation to negotiate, or request for qualifications.*

**Rejection of Bids:** The Owner reserves the right to reject any or all Bids and in particular to reject a Bid not accompanied by any required Bid Security or data required by the Bidding Documents or a Bid in any way incomplete or irregular.

**Acceptance of Bid (Award):** The Owner shall have the right to reject any or all Bids or waive any minor formality or irregularity in any Bid received. If the Contract is awarded, it will be awarded within a minimum of ninety (90) days from the date of the Bid opening, or as designated in the Bid Documents.

It is the intent of the Owner to award a contract to the Bidder who submits the lowest responsive, responsible Bid on the basis of the total price per square foot, provided the Bid has been submitted in accordance with the requirements of the Bidding Documents, if judged to be reasonable, does not exceed the funds budgeted for the Work and is deemed to be in the best interest of the County. The County may consider award to multiple Bidders, based on the individual unit prices, if awarding multiple contracts is more cost effective than awarding a single contract based on pricing for the County as a whole.

#### **PRICING**

The unit prices submitted by the Bidder shall include any and all equipment, materials, labor, supervision and transportation, and all other costs, fees, or charges associated with providing the required services. The Unit Prices, multiplied by quantities shall be the final cost to the County, unless additional pricing is proposed by the Contractor, and approved by the County for a specific project.

The pricing under this Bid shall remain firm throughout the duration of the initial term of this Contract Agreement. No pricing increases will be permitted during the initial term. Price increases shall only be considered at the time Contract Renewal(s) is issued. CONFLICT OF INTEREST DISCLOSURE FORM**

Project Number/Description: Bid No: 18-73; Countywide Generator Maintenance and Services

The term "conflict of interest" refers to situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting a Contractor's/contractor's professional judgment in completing work for the benefit of St. Johns County ("County"). The bias such conflicts could conceivably impart may inappropriately affect the goals, processes, methods of analysis or outcomes desired by the County.

Consultants/Contractors are expected to safeguard their ability to make objective, fair, and impartial decisions when performing work for the benefit of the County. Consultants/Contractors, therefore must avoid situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting the Consultant's/contractor's professional judgement when completing work for the benefit of the County.

The mere appearance of a conflict may be as serious and potentially damaging as an actual distortion of goals, processes, methods of analysis or outcomes. Reports of conflicts based upon appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

It is expressly understood that failure to disclose conflicts of interest as described herein may result in immediate disqualification from evaluation or immediate termination from work for the County.

Please check the appropriate statement:

I hereby attest that the undersigned Respondent has no actual or potential conflict of interest due to any other clients, contracts, or property interests for completing work on the above referenced project.

The undersigned Respondent, by attachment to this form, submits information which may be a potential conflict of interest due to other clients, contracts or property interests for completing work on the above referenced project.

Executive Order 12549

**Applicability to Contracts**

Executive Order 12549, as implemented by 49 CFR Part 29, prohibits FTA recipients and sub-recipients from contracting for goods and services from organizations that have been suspended or debarred from receiving Federally-assisted contracts. As part of their applications each year, recipients are required to submit a certification to the effect that they will not enter into contracts over \$100,000 with suspended or debarred contractors and that they will require their contractors (and their subcontractors) to make the same certification to them.

**Flow Down**

CONTRACTOR's are required to pass this requirement on to subcontractors seeking subcontracts over \$100,000. Thus, the terms "lower tier covered participant" and "lower tier covered transaction" include both contractors and subcontractors and contracts and subcontracts over \$100,000.

The **CONTRACTOR** certifies to the best of its knowledge and belief, that it and its principals:

1. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency,
2. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction, violation of Federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
3. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2) of this certification; and
4. Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. (If the primary participant (applicant for an FTA grant, or cooperative agreement, or potential third party contractor) is unable to certify to any of the statements in this certification, the participant shall attach an explanation to this certification.)

THE CONTRACTOR \_\_\_\_\_ CERTIFIES OR AFFIRMS THE TRUTHFULNESS AND ACCURACY OF THE CONTENTS OF THE STATEMENTS SUBMITTED ON OR WITH THIS CERTIFICATION AND UNDERSTANDS THE PROVISIONS APPLICABLE THERETO.

General waivers are listed in 49 CFR 661.7, and include final assembly in the United States for 15 passenger vans and 15 passenger wagons produced by Chrysler Corporation, microcomputer equipment, software, and small purchases (currently less than \$100,000) made with capital, operating, or planning funds. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11. Rolling stock not subject to a general waiver must be manufactured in the United States and have a 60 percent domestic content.

A bidder or offer must submit to the FTA recipient the appropriate Buy America certification (below) with all bids on FTA-funded contracts, except those subject to a general waiver. The awarded Contractor shall be required to make any and all records from background screenings of Contractor provided personnel available to the County for review/audit, upon request from the County. The Contractor shall be responsible for obtaining any and all necessary permissions from the screened individuals allowing the transmission of records to the County for review.

prospective new employees, or any other employees who the Contractor intends to perform work under this Contract, prior to any work being performed at any County location under this Contract.

- f. The County reserves the right to request alternate service technicians to perform services under this contract at any time, for any reason. The Contractor shall be responsible for having backup technicians, who have passed the required background checks stated above to perform the necessary work upon request from the County.

The Contractor shall maintain and update generator systems maintenance records for all equipment serviced under this Contract. Such documentation shall include, but is not limited to, records of all service calls, preventative maintenance performed, and any system modifications if applicable. The Contractor shall maintain a service log at the site of each piece of equipment maintained under this Contract.

- a. The Contractor shall submit a report of each inspection performed within 10 consecutive calendar days of said inspection. Report shall be submitted to the assigned Property Manager.

#### **VII. Payment**

The Contractor shall invoice the County according to the schedule that is developed upon award of a Contract. The County may select annual and/or quarterly pre-payments for services performed under this contract. Respondents shall submit proposed discounts (if any) for annual and quarterly pre-payments on Exhibit "A" provided herein.

#### **Fuel Polishing Services**

The County shall be solely responsible for determining whether or not and fuel storage tank or portable generator included under this Contract requires fuel polishing services by the Contractor. If, at any time, it is determined by the County that the diesel fuel stored in any of the tanks or portable generators requires fuel polishing, the Contractor shall be required to perform the necessary services as stated below.

The Contractor shall submit a written pricing proposal for fuel polishing services at the time the services are requested by the County for any location. The Contractor shall include a breakout of pricing for fuel polishing, tank cleaning, fuel sampling and analysis, application of fuel treatment, and all other required services, in the submitted pricing proposal. The proposal shall also contain any alternative methods for fuel polishing proposed by the Contractor.

Upon review and approval of the proposal by the Administrative Manager of Facilities Management, and relevant SJC Department Representative, the Contractor shall be provided written approval to perform the work.

It shall be the Contractor's responsibility to coordinate the work with the County Facility where the storage tank or portable generator is located so as to minimize interference with County Staff and services.

Upon completion of the work, the Contractor shall submit an invoice for the fuel polishing services to the Building Operations Division for payment.

The Contractor shall provide any and all supplies, materials, parts, tools, meters, manuals and equipment necessary to perform fuel polishing services on any of the storage tanks or portable generators referenced above. The Contractor may use one of the methods stated below to polish the fuel in the County's fuel storage tanks and portable generators.

**Method 1:**

The Contractor shall remove the diesel fuel from the storage tank, filtering the fuel as it is removed. Filtered diesel fuel shall be placed in a clean storage container until the fuel tank is fully cleaned. The Contractor shall separately remove all sludge, water, grime, and contaminated diesel from the bottom of the tank after removing all of the diesel fuel. The Contractor shall then return the fuel to the empty tank, filtering the fuel a second time during the transfer.

The Contractor shall extract a sample of the polished fuel for analysis. If the condition of the polished fuel is satisfactory, the Contractor shall place the proper amount of diesel additive/treatment to the fuel tank. If the condition of the polished fuel is not satisfactory, the Contractor shall repeat the polishing process until the analysis of the polished fuel is satisfactory.

**Method 2:**

The Contractor shall remove all contents of the storage tank to be mechanically filtered and separated to remove the sludge, water, grime and contaminated diesel and returned to the tank. The Contractor shall then extract a fuel sample from the polished fuel for analysis. If the condition of the polished fuel is satisfactory, the Contractor shall place the proper amount of diesel additive/treatment to the fuel tank. If the condition of the polished fuel is not satisfactory, the Contractor shall repeat the polishing process until the analysis of the polished fuel is satisfactory.

After achieving a satisfactory fuel sample report, the Contractor shall treat the polished fuel with a specified amount of industry/generator manufacturer-approved fuel additive. This additive must include biocide to deter microbial growth and stabilizer to deter fuel degradation. The additive shall meet or exceed all manufacturers' recommendations. Additives to be used in Caterpillar generators shall be handled exactly as specified in the manual for each model generator, with no exceptions.

The Contractor may propose alternative methods for fuel polishing at the time the request for these services is sent by the County. The County shall review proposed alternative methods as submitted by the Contractor. The County shall be solely responsible for determining whether or not an alternative method is acceptable, and shall provide acceptance of any alternative method in writing.

In addition to the fuel polishing methods stated above, the County may require the Contractor to clean the inside of the storage tank or portable generator if necessary. This shall include the cleaning of all interior walls/sides of the tank with the appropriate cleaning products, chemicals, and degreasers, etc. These cleaning agents shall be completely removed from the fuel tank by the Contractor prior to returning the polished fuel being returned to the tank.

**DAVIS-BACON ACT**  
**40 USC &167; 276a -276a-5 (1998)**  
**29 CFR § 5 (1999)**

**(1) Minimum Wages**

(i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the **CONTRACTOR** and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Part 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided that the employer's payroll records

accurately set forth the time spent in each classification in which work is performed. The wage determination and the Davis-Bacon poster (WH-1321) shall be posted at all times by the **CONTRACTOR** and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii) (A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) Except with respect to helpers as defined as 29 CFR 5.2(n)(4), the work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination; and

(4) With respect to helpers as defined in 29 CFR 5.2(n)(4), such a classification prevails in the area in which the work is performed.

(B) If the **CONTRACTOR** and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary. (C) In the event the **CONTRACTOR**, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the **CONTRACTOR** shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the **CONTRACTOR** does not make payments to a trustee or other third person, the **CONTRACTOR** may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, provided, that the Secretary of Labor has found, upon the written request of the **CONTRACTOR**, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the **CONTRACTOR** to set aside in a separate account assets for the meeting of obligations under the plan or program.

## (2) Withholding

**THE COUNTY** shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the **CONTRACTOR** under this contract or any other Federal contract with the same prime **CONTRACTOR**, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the **CONTRACTOR** or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the **COUNTY** may, after written notice to the **CONTRACTOR**, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased. (3) **Payrolls and Basic Records**

(i) Payrolls and basic records relating thereto shall be maintained by the **CONTRACTOR** during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the **CONTRACTOR** shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii) (A) The **CONTRACTOR** shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the [CITY OF OCALA] for transmission to the Federal Transit Administration. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR Part 5. This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington, DC 20402. The prime **CONTRACTOR** is responsible for the submission of copies of payrolls by all subcontractors.

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance", signed by the **CONTRACTOR** or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be maintained under 29 CFR Part 5 and that such information is correct and complete;

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible

deductions as set forth in Regulations, 29 CFR Part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract. (C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the **CONTRACTOR** or subcontractor to civil or criminal prosecution under section 1001 of Title 18 and Section 231 of title 31 of the United States Code.

(iii) The **CONTRACTOR** or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the Federal Transit Administration or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the **CONTRACTOR** or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the **CONTRACTOR**, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

#### (4) Apprentices and Trainees

(i) Apprentices - Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the **CONTRACTOR** as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a **CONTRACTOR** is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator of the Wage and Hour Division of the U.S. Department of Labor determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the **CONTRACTOR** will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees - Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the

predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the **CONTRACTOR** will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity - The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

#### **(5) Compliance with Copeland Act Requirements**

The **CONTRACTOR** shall comply with the requirements of 29 CFR Part 3, which are incorporated by reference in this contract. (6) **Subcontracts**

The **CONTRACTOR** or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as the Federal Transit Administration may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime **CONTRACTOR** shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

#### **(7) Contract Termination: Debarment**

A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a **CONTRACTOR** and a subcontractor as provided in 29 CFR 5.12.

#### **(8) Compliance with Davis-Bacon and Related Act Requirements**

All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR Parts 1, 3, and 5 are herein incorporated by reference in this contract.

#### **(9) Disputes Concerning Labor Standards**

Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the **CONTRACTOR** (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

**(10) Certification of Eligibility**

(i) By entering into this contract, the **CONTRACTOR** certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

**CONTRACT WORK HOURS AND SAFETY STANDARDS ACT**

**40 U.S.C. §§ 327 -333 (1999)**

**29 C.F.R. § 5 (1999)**

**29 C.F.R. § 1926 (1998)**

**Pursuant to Section 102 (Overtime):**

(These clauses are specifically mandated under DOL regulation 29 C.F.R. § 5.5 and when preparing a construction contract in excess of \$2,000 these clauses should be used in conjunction with the Davis-Bacon Act clauses

**(1) Overtime Requirements**

No **CONTRACTOR** or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

**(2) Violation; Liability for Unpaid Wages; Liquidated Damages**

In the event of any violation of the clause set forth in paragraph (1) of this section the **CONTRACTOR and** any subcontractor responsible therefore shall be liable for the unpaid wages. In addition, such **CONTRACTOR** and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in Paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

**(3) Withholding for Unpaid Wages and Liquidated Damages**

St Johns County, the recipient of federal funds, shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the **CONTRACTOR** or subcontractor under any such contract or any other Federal contract with the same prime **CONTRACTOR**, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime **CONTRACTOR**, such sums as may be determined to be necessary to satisfy any liabilities of such **CONTRACTOR** or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in Paragraph (2) of this section.

**(4) Subcontracts**

The **CONTRACTOR** or subcontractor shall insert in any subcontracts the clauses set forth in this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime

**CONTRACTOR** shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in this section.

(Section 102 non-construction contracts should also have the following provision:)

#### **(5) Payrolls and Basic Records**

(i) Payrolls and basic records relating thereto shall be maintained by the **CONTRACTOR** during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the **CONTRACTOR** shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. **CONTRACTOR's** employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

#### **Section 107 (OSHA):**

##### **Contract Work Hours and Safety Standards Act**

(i) The **CONTRACTOR** agrees to comply with section 107 of the Contract Work Hours and Safety Standards Act, 40 U.S.C. Section 333, and applicable DOL regulations, "Safety and Health Regulations for Construction" 29 C.F.R. Part 1926. Among other things, the **CONTRACTOR** agrees that it will not require any laborer or mechanic to work in unsanitary, hazardous, or dangerous surroundings or working conditions.

(ii) **Subcontracts** - The **CONTRACTOR** also agrees to include the requirements of this section in each subcontract. The term "subcontract" under this section is considered to refer to a person who agrees to perform any part of the labor or material requirements of a contract for construction, alteration or repair. A person who undertakes to perform a portion of a contract involving the furnishing of supplies or materials will be considered a "subcontractor" under this section if the work in question involves the performance of construction work and is to be performed: (1) directly on or near the construction site, or (2) by the employer for the specific project on a customized basis. Thus, a supplier of materials which will become an integral part of the construction is a "subcontractor" if the supplier fabricates or assembles the goods or materials in question specifically for the construction project and the work involved may be said to be construction activity. If the goods or materials in question are ordinarily sold to other customers from regular inventory, the supplier is not a "subcontractor". The requirements of this section do not apply to contracts or subcontracts for the purchase of supplies or materials or articles normally available on the open market.

### **BONDING REQUIREMENTS**

#### **Applicability to Contracts**

For those construction or facility improvement contracts or subcontracts exceeding \$100,000, FTA may accept

the bonding policy and requirements of the recipient, provided that they meet the minimum requirements for construction contracts as follows:

a. A bid guarantee from each bidder equivalent to five (5) percent of the bid price. The "bid guarantees" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

b. A performance bond on the part to the **CONTRACTOR** for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

c. A payment bond on the part of the **CONTRACTOR** for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment, as required by law, of all persons supplying labor and material in the execution of the work provided for in the contract. Payment bond amounts required from **CONTRACTOR's** are as follows:

(1) 50% of the contract price if the contract price is not more than \$1 million;

(2) 40% of the contract price if the contract price is more than \$1 million but not more than \$5 million; or

(3) \$2.5 million if the contract price is more than \$5 million.

d. A cash deposit, certified check or other negotiable instrument may be accepted by a grantee in lieu of performance and payment bonds, provided the grantee has established a procedure to assure that the interest of FTA is adequately protected. An irrevocable letter of credit would also satisfy the requirement for a bond.

#### **SEISMIC SAFETY REQUIREMENTS**

**42 U.S.C. 7701 et seq. 49**

**CFR Part 41**

The **CONTRACTOR** agrees that any new building or addition to an existing building will be designed and constructed in accordance with the standards for Seismic Safety required in Department of Transportation Seismic Safety Regulations 49 CFR Part 41 and will certify to compliance to the extent required by the regulation. #### **PRIVACY ACT**

**5 U.S.C. 552**

### **Contracts Involving Federal Privacy Act Requirements**

Among other things, the **CONTRACTOR** agrees to obtain the express consent of the Federal Government before the **CONTRACTOR** or its employees operate a system of records on behalf of the Federal Government. The **CONTRACTOR** understands that the requirements of the Privacy Act, including the civil and criminal penalties for violation of that Act, apply to those individuals involved, and that failure to comply with the terms of the Privacy Act may result in termination of the underlying contract.

(2) The **CONTRACTOR** also agrees to include these requirements in each subcontract to administer any system of records on behalf of the Federal Government financed in whole or in part with Federal assistance provided by FTA.

### **DISADVANTAGED BUSINESS ENTERPRISE (DBE)**

#### **49 CFR Part 26**

St Johns County has established a Disadvantaged Business Enterprise (DBE) program in accordance with regulations of the US Department of Transportation (DOT), 49 CFR Part 26. The County has received Federal financial assistance from the DOT, and as a condition of receiving this assistance, the County has signed an assurance that it will comply with 49 CFR Part 26. It is the policy of the County to ensure that DBEs, as defined in part 26, have an equal opportunity to receive and participate in DOT assisted contract. It is also our policy:

- To ensure nondiscrimination in the award and administration of DOT assisted contracts;
- To create a level playing field on which DBEs can compete fairly for DOT assisted contracts;
- To ensure that the DBE Program is narrowly tailored in accordance with applicable law;
- To ensure that only firms that fully meet 49 CFR Part 26 eligibility standard are permitted to participate as DBEs;
- To help remove barriers to the participation of DBEs in DOT assisted contract; and
- To assist the development of firms that can compete successfully in the market place outside the DBE Program.

St Johns County has established a DBE participation GOAL of 6% for this project. This GOAL was determined by census data that shows Total Establishments using a NAICS code of 2381. This data was then compared against a list of qualified DBE firms obtained from the State of Florida's Equal Opportunity Office web site using the same NAICS code of 2381. If the bidder is DBE certified they must submit a state of Florida Department of Transportation Disadvantaged Business Enterprise (DBE) Certification. If the bidder is not a DBE firm the contractor entering into an agreement for this project must meet the following criteria:

3. Achieve the DBE participation GOAL as specified **OR**
4. Submit documentation detailing the Good Faith Efforts made in researching potential DBE Firms
