In consideration of the mutual promises and covenants contained herein, the parties hereby agree as follows:

1.1.2 Documents not enumerated above are not Contract Documents and do not form part of this Contract. No terms, conditions, limitations or exclusions in Contractor’s submitted Bid or invoices shall be binding upon County or become part of the Contract Documents. In the event of discrepancies, the Contract Documents shall be interpreted in the order of precedence as listed above in Section 1.1.1. Additionally, Specifications shall govern over Drawings, electronic documents shall govern over hard-copy documents, numerical dimensions shall govern over dimensions acquired by scaling, and fully executed documents shall govern over unsigned drafts.

1.1.3 Shop Drawings, Product Data, Samples and similar submittals (hereafter “Submittals”) are not Contract Documents. The County will review and take action upon Contractor's submitted Submittals but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of Submittals is not conducted for the purpose of determining the accuracy and completeness of other details, such as dimensions and quantities, nor for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of Contractor.

1.1.4 All Submittals (whether in hard or soft copy) prepared by or on behalf of Contractor in the course of the Work shall be the exclusive property of the County. Ownership of any proprietary information or intellectual property contained in such Submittals shall remain with Contractor. Contractor grants the County a perpetual, royalty-free, license to use, copy and allow third parties to use such Submittals and all proprietary information contained in them as may be required for the County’s internal business purposes including without limitation tendering, installing, operating, repairing, maintaining, modifying, reconstructing, replacing and/or upgrading the Work. Such license shall be capable of transfer and/or sub-licensing in whole or part without notice to or further consent of Contractor. Contractor shall not be held liable for reuse of Contractor’s Submittals by the County for purposes other than originally intended as stated in the Contract Documents.

1.1.5 Contractor is solely responsible for requesting instructions, interpretations, or clarifications to the Contract Documents and is solely liable for any costs and/or expenses arising from its failure to do so. Contractor shall have a continuing duty to read, carefully study and compare each of the Contract Documents, the Submittals and shall give immediate written notice to the Project Manager and the County of any inconsistency, ambiguity, error or omission which Contractor may discover with respect to these documents before proceeding with the affected Work. The issuance, or the express or implied approval by the County or the Project Manager of the Contract Documents or Submittals shall not relieve any such approval by evidence of Contractor's compliance with the Contract. The County has requested the Project Manager to provide to Contractor documents for the Project, including the Drawings and Specifications for the Project, which are accurate, adequate, consistent, coordinated, and sufficient for construction. HOWEVER, THE COUNTY MAKES NO REPRESENTATION OR WARRANTY OF ANY NATURE WHATSOEVER TO CONTRACTOR CONCERNING SUCH DOCUMENTS. By the execution hereof, Contractor acknowledges and represents that it has received, reviewed and carefully examined such documents, has found them to be complete, accurate, adequate, consistent, coordinated and sufficient for construction, and that Contractor has not, does not, and shall not rely upon any representation or warranties by the County concerning such documents as no such representation or warranties have been or are hereby made.

1.1.6 Any dispute relating to the Contract Documents, shall be resolved through good faith efforts upon the part of the Contractor and the County. Should Contractor have any questions concerning interpretation or clarification of the Contract Documents, Contractor shall submit to the County's Project Manager, in writing, a request for clarification that clearly and concisely sets forth the issues for which such request is sought. Such request shall be submitted to the Project Manager by the Contractor within three (3) business days of receipt of the Contract Documents, or the direction, interpretation, or clarification thereof provided by the County. The County's Project Manager shall render a determination concerning such interpretation or clarification, which shall be considered final and conclusive unless Contractor files a written protest within fourteen (14) calendar days of receipt thereof. Contractor's protest shall be submitted to the Assistant Director of Purchasing & Contracts, and shall state clearly and in detail the basis thereof. Failure by the Contractor to protest the County Project Manager's rendered determination within the timeframe above, shall constitute a waiver by the Contractor of all its rights to further protest, judicial, or otherwise. The Assistant Director of Purchasing & Contracts shall consider the Contractor's protest and shall render a decision thereon, in writing, within ten (10) calendar days. If Contractor does not agree with the determination of the Assistant Director of Purchasing & Contracts, the Contractor shall deliver written notice to that effect to the County within three (3) business days of receipt of the determination by the Assistant Director of Purchasing & Contracts.

1.1.7 Unless otherwise directed in writing, Contractor shall at all times carry on with the Work and maintain its progress schedule in accordance with the requirements of the Contract and the determination of the County, pending resolution of any Contract Document dispute. In no event will a dispute, the filing of a protest, claim or appeal, or the resolution or litigation thereof, relieve Contractor from its obligation to timely perform the Work required by the Contract and to maintain the progress schedule in accordance with the Contract.

1.1.8 Any and all Contract Documents shall remain the property of the County. Contractor is granted a limited license to use and reproduce applicable portions of the Contract Documents issued by the County appropriate to, and for use in, execution of the Work. Contractor shall have the right to keep one record set of the Contract Documents upon completion of the Work; provided, however, that in no event shall Contractor and/or its subcontractors use, or permit to be used, any or all of such Contract Documents on other projects without the specific written consent of the County.

Final Completion shall be reached within **thirty (30)** consecutive calendar days after Substantial Completion.

3.1.2 Contractor, prior to commencing the Work, shall submit to the Project Manager for his/her information, Contractor’s schedule for completing the Work. Contractor’s schedule shall be revised no less frequently than monthly (unless the parties otherwise agree in writing), and relate to the entire Work. By way of illustration and not exclusion, Contractor’s schedule shall: (1) contain sufficient activities to assure adequate planning for the Work, (2) include approved changes to the Work that impact the schedule, (3) include a clearly defined critical path, and (4) include a unique description for each activity. In the event any schedule revision impacts the completion time as provided in Paragraph 3.1.1 above, Contractor shall submit a request for additional time, in accordance with procedures as provided in Paragraph 9.2 below. Failure by Contractor to strictly comply with the provisions of this Paragraph shall constitute a material breach of this Contract.

## 3.2 Time is of the Essence

Time is of the essence regarding each and every obligation of Contractor under this Contract. Each obligation is deemed material, and a breach of any such obligation (including a breach resulting from untimely performance) is a material breach.

### **3.3 Substantial Completion**

3.3.1 When Contractor considers the Work is substantially complete, Contractor shall notify the Project Manager in writing and submit a comprehensive list of incomplete items to be completed or corrected prior to Final Completion. The Project Manager will promptly inspect the Work following receipt of Contractor's notice and attached list of incomplete items. The Project Manager may refuse to inspect the Work if the Work is obviously not substantially complete or when Contractor's list is not complete.

3.3.4 Once Substantial Completion is achieved and within the time allowed by F.S. 218.70 et seq, the Project Manager will prepare the punch list required by the Local Government Prompt Payment Act. Unless otherwise mutually agreed, the punch list items shall be corrected by Contractor within thirty (30) calendar days and prior to any request for Final Inspection and Acceptance. The failure to include any corrective Work or pending items not yet completed on the list does not alter the responsibility of Contractor to complete the Work pursuant to this Contract.

### **3.4 Final Inspection**

When all the Work is finally complete and Contractor is ready for a final inspection, Contractor shall provide written notice to the County and the Project Manager. The Project Manager, with Contractor's cooperation, will conduct such reviews, inspections and tests as may be reasonably required to satisfy the County that the Work, or identified portion of the Work, conforms to all requirements of the Contract Documents. If the Project Manager determines that the Work or any part of the Work is not complete or fails to conform to the Contract Document requirements, Contractor will be notified in writing of deficiencies. After correcting all deficiencies Contractor shall again initiate the procedures for final inspection as set forth above. The Project Manager will issue a Final Certificate for Payment following satisfactory inspection of the Work provided Contractor has delivered to the Project Manager the final corrected as-built Drawings and the final bill of materials, if any.

### **3.5 Liquidated Damages**

3.5.1 Execution of this Contract by Contractor shall constitute Contractor's acknowledgment that the County will sustain damages in the amount identified in Paragraph 3.5.2 below for each and every calendar day during which completion of the Work required is delayed beyond Final Completion. Contractor and County agree that such damages shall be presumed to be the damages actually sustained by the County as defined below, and that because of the nature of the Project, it would be impracticable or impossible to determine or extremely difficult to fix the actual damages.

3.5.2 If Contractor fails to achieve Substantial Completion or Final Completion of the Work by its applicable date, then the County shall be entitled to withhold from any amounts otherwise due Contractor or to be paid as a debt due the sum of **\$1,699** per day for each and every calendar day of unexcused delay "Liquidated Damages". The parties agree that such Liquidated Damages are not a penalty but rather a genuine pre-estimate of monetary damages sustained by the County for loss of revenue and/or increased project administration expenses related to this Contract because Contractor failed to perform and complete Work within the time fixed for completion or additional time granted pursuant to the provisions hereof. The assessment of Liquidated Damages are without prejudice to the County's rights of termination and Contractor's obligation to complete the Work.

3.5.3 Should Contractor fall behind the approved Work schedule; the County reserves the right to deduct Liquidated Damages based on an estimated period of late completion. The County need not wait until completion of Work to withhold Liquidated Damages from Contractor's progress payments.

### **3.6 Disclaimer of Consequential Damages**

The County shall not be liable to Contractor, whether in contract, tort, warranty or under any statute or on any other basis, for any consequential, incidental, indirect, special, punitive or exemplary damages suffered or incurred by Contractor in connection with this Contract, even if the County has been advised of the possibility of such damages. Consequential damages shall include, by way of example and without limitation, opportunity costs, loss of use of facilities or other assets, consequential damage claims of subcontractors, lost profits, lost savings, lost business, lost bonding capacity, lost financing, lost reputation or lost goodwill.

Unit prices are "all-inclusive", including labor, material, supervision, tools, equipment, insurance, taxes, fringe benefits, coordination, engineering, overhead, profit, performance and payment bonds, and all other things necessary. Unit prices are fixed for the duration of the Contract and are not subject to escalation for any cause.

Contractor's Schedule of Values shall be prepared in such form, with such detail, and supported by such data as the Project Manager or the County may require to substantiate its accuracy. Contractor shall not imbalance the Schedule of Values nor artificially inflate any element thereof. The violation of this provision by Contractor shall constitute a material breach of this Contract.

4.2.2 Upon approval by the County the Schedule of Values shall be used as a basis for Contractor's Application for Payment. The total of all payments in the Schedule of Values must at all times be equal to the Contract Price. No progress payment shall be made to Contractor until an acceptable Schedule of Values is submitted.

4.2.3 General conditions costs may be considered as a line item for the following items (break down required) (collectively the following shall be known as the General Conditions Costs):

The Project Manager may but shall have no obligation to witness and verify such surveys. Such Application for Payment shall be based on the amount of Work done or completed during the payment period which is defined as the first day of the preceding calendar month through the last day of the preceding calendar month. The Project Manager will review the Application for Payment to determine whether the quantity and quality of the Work is as represented in the Application for Payment and thereafter confirm to the County the amount properly owing to Contractor. Upon receipt by the County of the Project Manager's recommendation for payment, payments will be made in accordance with the Local Government Prompt Payment Act (Sections 218.70-218.80 of the Florida Statutes) less such amounts, if any, otherwise owing by Contractor to the County or which the County shall have the right to withhold. Such meeting and review shall occur within ten (10) business days of receipt by the County of Contractor's written demand. The Assistant Director of Purchasing and Contracts shall issue a written decision on the dispute within ten (10) business days of such meeting. This decision shall be deemed the County's final decision for the purpose of the Local Government Prompt Payment Act.

4.4.4 The County may withhold from each progress payment made to Contractor an amount not to exceed five (5%) percent of payment as retainage until final acceptance of all Work in accordance with Section 255.078 of the Florida Statutes. Any interest earned on retainage shall accrue to the benefit of the County. The County shall make prompt payment to Contractor, unless in accordance with Section 255.078(6) of the Florida Statutes, such funds are the subject of a good faith dispute, claim or demand by the County or Contractor.

4.5.5 No progress payment, nor any use or occupancy of the Project by the County, shall be interpreted to constitute approval or acceptance of any Work under this Contract, nor be considered a waiver by Contractor of any of the terms of this Contract.

4.5.6 The County's performance and obligation to pay under this Contract is contingent upon an appropriation of lawfully available funds by the Board of County Commissioners. The County shall promptly notify Contractor if the necessary appropriation is not made.

## **4.6 Withheld Payment**

## **9.2 Changes in the Contract Time**

9.2.1 The Contract Time will be extended by Change Order in an amount equal to time lost on critical Work items due to delays beyond the control of and through no fault or negligence of Contractor if a claim for an extension is submitted in accordance with Section 8.1.2 above.

9.2.2 If Contractor is delayed in progressing any task which at the time of the delay is then critical or which during the delay becomes critical, as a direct result of unusually adverse weather conditions not reasonably anticipated, or any other causes beyond Contractor's reasonable control and not attributable to Contractor or Contractor's Subcontractor's actions or failure to act, then the date for achieving Substantial Completion of the Work may be extended for such reasonable time as the Project Manager may determine. An extension of Contract Time shall be Contractor's sole and exclusive remedy for delay unless the delay is solely caused by fraud, bad faith or active interference on the part of the County or its representatives. In no event shall Contractor be compensated for interim delays that do not extend the Contract Time.

9.2.3 Extensions to the Contract Time for delays caused by the effects of inclement weather shall be submitted as a request for a change in the Contract Time pursuant to paragraph 8.1.2 above. Time extensions are justified only when rain, other inclement weather conditions, or related adverse soil conditions result in Contractor's inability to work at least fifty percent (50%) of the normal workday on controlling items of Work identified on the accepted schedule or updates to that schedule.

9.2.4 Contractor shall, at no cost to the County, take all precautions necessary to secure the Project Jobsite from any damage that may be caused by all threatened storm events, regardless of whether the County has given notice of same. Compliance with any specific storm event precautions will not constitute additional work. Suspension of the Work caused by a threatened or actual storm event, regardless of whether the County has directed such suspension, will entitle Contractor to additional Contract Time only and shall not give rise to a claim for a change in the Contract Price.

## **9.3 Changes in the Contract Price**

9.3.1 In connection with any claim by Contractor against the County for compensation in excess of the Contract Price, any liability of the County for Contractor's costs shall be strictly limited to direct costs incurred by Contractor and shall in no event include indirect costs or consequential damages of Contractor.

9.3.2 Any change in the Contract Price resulting from a Change Order shall be determined as follows:

- a) By mutual acceptance of a lump sum increase or decrease in costs. Upon the Project Manager's request, Contractor shall furnish a detailed estimate of increased or decreased costs, together with cost breakdowns and other support data as the Project Manager may reasonably request.
- b) By Unit Prices stated in the Contract Documents, or subsequently agreed upon payment.
- c) By a manner or method mutually agreed by the County and Contractor.

9.3.3 If no mutual agreement occurs between the County and Contractor, then the change in the Contract Price, if any, shall than be determined by the Project Manager on the basis of the reasonable expenditures or savings of those performing, deleting or revising the Work attributable to the change, including, in the case of an increase or decrease in the Contract Price, a reasonable allowance for direct job site overhead and profit. In such case, Contractor shall present, in such form and with such content as the County or the Project Manager requires, an itemized accounting of such expenditures or savings shall be limited to the following: reasonable costs of materials, supplies, or equipment including delivery costs, reasonable costs of labor, including social security, unemployment insurance, fringe benefits required by a pre-existing Contract or by custom, and workers' compensation insurance, reasonable costs of premiums for all bonds and insurance, permit fees, and sales, use or other taxes paid by Contractor that are directly attributable to the changed Work. In no event shall any expenditure or savings associated with Contractor's home office or other non-Jobsite overhead expenses be included in any change in the Contract Price. Pending final determination of reasonable expenditures or savings to the County, payments shall be made to Contractor based on the Project Manager's recommendation for payment.

9.3.4 Costs which will not be allowed or paid in Change Orders or other claims under this Contract include, but are not limited to, the costs of preparing or reviewing change request/claims or proposed Change Orders, change request/claim consulting costs; lost revenues; lost profits; lost income or earnings; interest cost of any type other than those mandated by statute; rescheduling costs; lost earnings; loss of other business; or the costs of Contractor representatives visiting the Jobsite or participating in meetings with the County. The County shall not be liable to Contractor for claims of third parties, including Subcontractors, unless and until liability of Contractor has been established therefore in a court of competent jurisdiction.

#### **9.4 Acceptance of Change Orders**

Contractor's written acceptance of a Change Order shall constitute a final and binding Contract to the provisions thereof and a waiver of all claims in connection therewith, whether direct, indirect, or consequential in nature.

#### **9.5 Notice to Sureties**

Contractor shall notify and obtain the timely consent and approval of Contractor's surety with reference to all Change Orders if such notice, consent or approval is required by Contractor's surety or by law. Contractor represents and warrants to County that Contractor is solely liable and responsible to so notify and obtain any such consent or approval.

#### **9.6 Differing Site Conditions**

If during the course of the Work, Contractor encounters (1) subsurface or concealed conditions at the Project's Jobsite that differ materially from those shown in the Contract Documents and from those ordinarily encountered and generally recognized as inherent in work of the character called for in this Contract; or (2) unknown physical conditions of the Project's Jobsite, of an unusual nature, which differ materially from that ordinarily encountered and generally recognized as inherent in work of the character called for in this Contract, then Contractor, without disturbing the conditions and before performing any Work affected by such conditions, shall, within twenty-four (24) hours of their discovery, notify the Project Manager in writing of the existence of the aforesaid conditions. The Project Manager shall, within two (2) business days after receipt of Contractor's written notice, investigate the site conditions identified by Contractor. If, in the sole opinion of the Project Manager, the conditions do materially so differ and cause an increase or decrease in Contractor's cost of, or the time required for, the performance of any part of the Work, whether or not charged as a result of the conditions, the Project Manager may recommend an equitable adjustment to the Contract Price, or the Contract Time, or both. If Project Manager and Contractor cannot agree on an adjustment in the Contract Price or Contract Time, the adjustment shall be referred to the Assistant Director of Purchasing and Contracts for determination in accordance with the provisions of Paragraph 1.5. No request by Contractor for an equitable adjustment to this Contract under this provision shall be allowed unless Contractor has given written notice to the Project Manager in strict accordance with the provisions of this Article. **No request for an equitable adjustment or change to the Contract Price or Contract Time for differing site conditions shall be allowed if made after the date certified by the Project Manager as the date of Substantial Completion.**

The failure by Contractor to provide written notice as provided in this Paragraph 9.6 shall constitute a waiver by Contractor of any Claim arising out of or relating to such concealed or unknown condition.

### **ARTICLE X UNCOVERING WORK, STOPPING WORK, AND ACCEPTING DEFECTIVE OR NONCONFORMING WORK**

#### **10.1 Uncovering Work**

10.1.1 No Work or portion of Work shall be covered until inspected by the County as required by the Contract Documents. If any of the Work is covered contrary to the request or direction of the County or the Project Manager or contrary to the requirements of the Contract Documents, Contractor shall, upon written request, uncover it for the Project Manager's inspection and subsequently cover the Work in accordance with the Contract Documents without adjustment to the Contract Time or Contract Price. The provisions and obligations set forth herein shall apply even if the County ultimately determines (after uncovering and inspection) that the underlying Work in question conforms to the requirements of the Contract Documents.

10.1.2 Should the County wish to either (i) re-inspect a portion of the Work that has been covered by Contractor in compliance with Paragraph 9.1.1, above, or (ii) inspect a portion of the Work that has been covered by Contractor which is not required by the Contract Documents to be observed or inspected prior to its being covered and which the County did not specifically request to observe prior to its being covered, Contractor shall uncover the applicable portion of the Work

upon written request. If the County determines that the Work uncovered conforms to the requirements of the Contract Documents, then the County will pay the costs of uncovering and replacement of the cover through a Change Order and will adjust the Contract Time by Change Order if the uncovering and replacement Work extends the most current Substantial Completion or Final Completion date, as applicable. If, however, the County determines that the Work uncovered does not conform to the requirements of the Contract Documents, then Contractor shall pay the costs of uncovering and replacement and shall not be entitled to an adjustment of the Contract Price.

### **10.2 Right to Stop Work**

If the Work is defective, or Contractor fails to supply sufficient skilled workers, suitable materials, or equipment or fails to furnish or perform the Work in such a way that the completed Work will conform to the Contract Documents, the County, acting through the Project Manager, may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated. The County's right to stop Work, or any portion thereof, shall not give rise to any duty on the part of the County to exercise this right for the benefit of Contractor or any other party.

### **10.3 County May Accept Defective or Nonconforming Work**

If the County chooses to accept defective or nonconforming Work, the County may do so. In such events, the Contract Price shall be reduced by the greater of (a) the reasonable cost of removing and correcting the defective or nonconforming Work, and (b) the difference between the fair market value of the Work had it not been constructed in such manner as to include defective or nonconforming Work. If the remaining portion of the unpaid Contract Price, if any, is insufficient to compensate the County for its acceptance of defective or nonconforming Work, Contractor shall, pay the County such remaining compensation for accepting defective or nonconforming Work.

## **ARTICLE XI CONTRACT SUSPENSION AND TERMINATION**

### **11.1 Suspension**

The County may, by written notice, order Contractor to suspend, delay or interrupt Work, in whole or in part, for a period of time as the County may determine. If such suspension delays Contractor's ability to meet the authorized Contract Time, Contractor will be granted an extension of time as reasonably agreed by both parties. Contractor shall not be entitled to an adjustment to the Contract Time to the extent that performance is, was or would have been so suspended, delayed or interrupted by another cause, act or omission for which Contractor is responsible. Notwithstanding anything to the contrary in this Contract and, in the event any such suspension exceeds ninety (90) days, Contractor may, upon ten (10) days written notice to the County, terminate performance under this Contract and recover from the County an equitable adjustment in accordance with Section 9.3 above.

### **11.2 Termination**

11.2.1 The County may by written notice to Contractor terminate the Work under this Contract in whole or in part at any time for the County's convenience or for the default of Contractor.

11.2.2 The County may terminate this Contract, in whole or in part, for its convenience upon thirty (30) calendar days written notice to the Contractor. If the termination is for the convenience of the County, an equitable adjustment in the compensation to be paid to the Contractor may be made based upon the cost for completed Work, Work in progress, and the substantiated, reasonable and actually incurred costs associated with termination, including demobilization costs and amounts due in settlement of terminated contracts with Subcontractors. No amount shall be allowed for anticipated profit or unperformed work.

11.2.3 Contractor may terminate this Contract, for any reason up to sixty (60) calendar days written notice, provided that any outstanding Work is completed by Contractor, or Contractor's Subcontractors. Contractor further agrees to cooperate fully and assist the County, upon request, in order to complete any Work under this Project. In such event, the County shall compensate the Contractor as mutually agreed in writing for any such Work after termination.

11.2.4 The County may terminate this Contract, in whole or in part, for cause (or "default"). In the event of Contractor's default, the County shall issue a Notice of Default to the Contractor, articulating the items which the County finds to be in default of the requirements of this Agreement. Contractor shall have ten (10) calendar days from receipt of the Notice of Default to remedy deficiencies or submit, in writing, an acceptable plan for remedying the deficiencies identified in said notice. If Contractor fails to remedy such deficiencies, or to submit an acceptable plan for remedying such deficiencies, to the satisfaction of the County within the stated time period, the County shall issue a Notice of Termination, and take over

and prosecute the Work to completion. In such case, Contractor shall be liable to the County for all reasonable additional costs incurred by the County in completion of the Work.

11.2.5 Upon receipt of such termination notice Contractor shall immediately stop all Work and shall immediately cause any and all of its Subcontractors and material suppliers at any tier, to immediately stop all work, leaving the construction Site in a safe and secured condition. Contractor shall not be paid for any work performed or costs incurred after the termination date that reasonably could have been avoided. The County may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to its designee.

11.2.6 Contractor shall not remove from the construction Jobsite any materials, equipment, plant or tools that have been paid for by County pursuant to this Contract. Contractor hereby grants the County a free and unimpeded right of access to Contractor's facilities, which shall survive any termination of the Contract, for the purpose of permitting the County to take control of and remove any Work, including but not limited to any Work for which title has vested in the County.

11.2.7 For purposes of this Termination provision, Contractor shall be deemed in default if Contractor (1) persistently or repeatedly refuses or fails to perform the Work in a timely manner, (2) fails to supply enough properly skilled Workers, supervisory personnel or proper equipment or materials, (3) fails to make prompt payment to Subcontractors, or for materials or labor, (4) becomes insolvent or becomes the subject of voluntary or involuntary bankruptcy proceedings, (5) persistently disregards laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or (6) breaches or violates a material provision of this Contract. If the termination is attributable to the default of Contractor, the County shall have the right, without prejudice to any other right or remedy, to take possession of the construction Jobsite and of all materials, equipment, tools, construction equipment and machinery thereon owned by Contractor and may finish the Work by whatever methods it may deem expedient. In such case, Contractor shall not be entitled to receive any further payment until the Work is finished.

11.2.8 If the unpaid balance of the Contract Price less any liquidated damages due under this Contract, exceeds the cost of finishing the Work, including compensation for the Project Manager's additional services and expenses made necessary thereby, Contractor shall pay the difference to the County. This obligation for payment shall survive the termination of the Contract.

11.2.9 If, after termination by the County for Contractor's default, it is determined by a Court of competent jurisdiction that Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties, including adjustment of the Contract Price, will be the same as if the termination had been issued for the convenience of the County, as provided under Paragraph 11.2.4 above.

## **ARTICLE XII WARRANTY AND INDEMNITY**

### **12.1 Warranty**

12.1.1 Contractor warrants and guarantees to the County that all labor furnished to progress the Work under this Contract shall be competent to perform the tasks undertaken and that the product of such labor shall yield only first-class results and that all materials and equipment furnished under this Contract shall be of good quality, free from faults and defects and in strict conformance with the Contract Documents.

12.1.2 Contractor warrants all materials, equipment and labor it furnishes or performs under this Contract against all defects in design, materials and workmanship for a period of one year (or the period of time in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the Work, whichever is later) from and after the date of Final Completion. Contractor shall within ten (10) Days after being notified in writing by the County of any defect in the Work or non-conformance of the Work (Warranty Work), commence and prosecute with due diligence all Work necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the County in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the Work (or work of other contractors) damaged by its Warranty Work or which becomes damaged in the course of repairing or replacing Warranty Work. For any Work so corrected, Contractor's obligation hereunder to correct Warranty Work shall be reinstated for an additional one-year period, commencing with the date of acceptance of such corrected Work.

12.1.3 Contractor shall perform such tests as the County may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract Documents. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstatement of equipment and materials necessary to gain access, shall be the sole responsibility of Contractor.

12.1.4 All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the Work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the County, regardless of whether or not such warranties and guarantees have been transferred or assigned to the County by separate Contract and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the County.

12.1.5 In the event that Contractor fails to perform its obligations under this Warranty Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the County, the County shall have the right to correct and replace any defective or non-conforming Work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the County for any expenses incurred hereunder upon demand.

12.1.6 Failure on the part of the County to reject defective, non-conforming or unauthorized Work shall not release Contractor from its contractual obligations, be construed to mean acceptance of such Work or material by the County, or, after Final Completion, bar the County from recovering damages or obtaining such other remedies as may be permitted by law.

12.1.7 No adjustment in the Contract Time or Contract Price will be allowed because of delays in the performance of the Work as a result of correcting defective, non-conforming or unauthorized Work.

12.1.8 County and Contractor agree that the provisions of Florida Statute Chapter 558 shall not apply to this Contract.

## **12.2 Indemnity**

12.2.1 Contractor shall indemnify and hold harmless the County and its officers and employees ("Indemnified Party"), from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor and persons employed or utilized by Contractor in the performance of this Contract.

12.2.2 To the extent permitted by, and in accordance with Section 725.06 of the Florida Statutes, Contractor further agrees that "damages, losses and costs", includes fines, citations, court judgments, insurance claims, restoration costs or other liability, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor and persons employed or utilized by Contractor in the performance of this Contract.

12.2.4 In Claims against any person or entity indemnified hereunder by an employee of Contractor, any Subcontractor, or subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation under this Section 11.2 shall not be limited by a limitation on the amount or type of damages, compensation or benefits payable by or for Contractor or any Subcontractor or subcontractor under any workers' compensation acts, disability benefits acts or other employee benefit acts.

12.2.5 Contractor's indemnity and hold harmless obligations hereunder shall extend to all Claims against the County by any third party or third-party beneficiary of this Contract and all liabilities, damages, losses and costs related thereto.

12.2.6 This indemnification will not be valid in the instance where the loss is caused by the gross negligence, or willful, wanton or intentional misconduct of any Indemnified Party.

12.2.7 If any provision(s), or portion(s) of a provision(s) of this Section, or the application thereof to any person or circumstance shall, to any extent, be held to be invalid, illegal or unenforceable for any reason whatsoever, the validity,

legality and enforceability of the remaining provision(s), or part of the provision(s), shall not in any way be affected or impaired thereby; and shall be interpreted to the fullest extent possible to be enforceable and to give effect to the intent manifested by the provision(s), or portion(s) thereof, held invalid, illegal or unenforceable.

12.2.8 Contractor shall further indemnify and hold harmless the County its officers and employees from and against all Claims arising out of any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents and shall defend such Claims in connection with any alleged infringement of such rights.

Contractor will take affirmative action to ensure that applicants and employees are treated during employment without regard to their race, color, religion, disability, sex, age, national origin, ancestry, marital status, sexual orientation, gender identity or expression, familial status, genetic information or political affiliation. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertisement, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause.

14.16.2 Contractor will, in all solicitations or advertisements for employees placed for, by, or on behalf of Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, sexual orientation, gender identity or expression, familial status, or genetic information.

Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with Contractor's legal duty to furnish information.

Contractor will send to each labor union or representatives of workers with which it has a collective bargaining Contract or other contract or understanding, a notice to be provided by the County, advising the labor union or workers' representative of Contractor's commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the County and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

In the event of Contractor's noncompliance with the nondiscrimination clauses of this Contract or with any of such rules, regulations, or orders, this Contract may be cancelled, terminated or suspended in whole or in part and Contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

14.16.8 Contractor will include the provisions of paragraphs 14.16.1 through 14.16.8 in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. Contractor will take such action with respect to any subcontractor or vendor as may be directed to the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, Contractor may request the United States to enter into such litigation to protect the interest of the United States.

All records stored electronically must be provided to the County, upon request from the County's custodian of public records, in a format that is compatible with the County's information technology systems.

CONFLICT OF INTEREST DISCLOSURE FORM

Project (IFB) Number/Description: IFB No 1538; Alpine Groves Park Shoreline Restoration - FDEP #23FRP10

The term "conflict of interest" refers to situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting a contractor's professional judgment in completing work for the benefit of St. Johns County ("County"). The bias such conflicts could conceivably impart may inappropriately affect the goals, processes, methods of analysis or outcomes desired by the County.

Contractors are expected to safeguard their ability to make objective, fair, and impartial decisions when performing work for the benefit of the County. Contractors, therefore must there avoid situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting the Contractor's professional judgement when completing work for the benefit of the County.

The mere appearance of a conflict may be as serious and potentially damaging as an actual distortion of goals, processes, methods of analysis, or outcomes. Reports of conflicts based upon appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

It is expressly understood that failure to disclose conflicts of interest as described herein may result in immediate disqualification from evaluation or immediate termination from work for the County.

BUILD AMERICA, BUY AMERICA ACT (BABAA)

For Federal financial assistance programs subject to BABAA, contractors and subcontractors must sign and submit the following certification to the next tier (e.g., subcontractors submit to the contractor; contractors submit to the non-federal entity) each bid or offer for an infrastructure project that has not been waived by a BABAA waiver:

The undersigned certifies, to the best of their knowledge and belief, that:

The Build America, Buy America Act (BABAA) requires that no federal financial assistance for "infrastructure" projects is provided "unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States." Section 70914 of Public Law No. 117-58, §§ 70901-52.

The undersigned certifies that for the Alpine Groves Park Shoreline Restoration in St. Johns County, Florida project that the iron, steel, manufactured products, and construction materials used in this contract are in full compliance with the BABAA requirements including:

1. All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. All manufactured products purchased with federal financial assistance must be produced in the United States. For a manufactured product to be considered produced in the United States, the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.
3. All construction materials are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.

"The Contractor, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any."

### ADDENDUM #3

November 7, 2023

**To: Prospective Bidders**  
**From: St. Johns County Purchasing Department**  
**Subject: Bid No: 1538; Alpine Groves Park Shoreline Restoration – FDEP #23FRP10**

This Addendum #3 is issued for further Bidders' information and is hereby incorporated into the Bid Documents. Each Bidder must incorporate any and all revisions, clarifications, and/or supplemental information provided in all issued addenda with the submitted Bid. Bidders must submit a copy of each signed addendum with their Bid as provided in the Bid Documents.

#### **Revisions/Clarifications:**

The County provides the following revisions and/or clarifications to be incorporated into the Bid Documents:

1. Technical Specifications Section 3.1.D.2 Bedding Stone (Bid Item 4.2), first paragraph on Page 9, is revised as follows:

“Prior to placement of armor stones, CONTACTOR shall provide and place on top of the filter fabric a one foot (1') layer of Bedding Stone consistent with FDOT Specification 530-2.1.4 Bedding Stone. Bedding Stone shall have a bulk specific gravity of not less than 1.90 and shall be reasonably free from thin, flat, and elongated pieces.”

2. **Revised Attachment “A” – Schedule of Values** is provided with this Addendum revising Base Bid Item 4.2 to specify a 1-ft layer of bedding stone and increasing the quantity to 430 tons.

Failure to use the Revised Attachment “A” – Schedule of Values Form may result in the submittal being deemed non-responsive.

#### **Questions/Answers:**

The County provides the following answers to the questions submitted below:

1. After the pre-bid meeting this morning we went out to the park and looked at the area to be restored. At the meeting it was mentioned that some of the trees on top of the bluff needed to be removed as they are unsafe, we got that figured out. My question is closer to the house there is an older dead Cypress tree and an area that is taped off with a sign stating the presence of underground wasps. Is the clearing of the underground wasp area and the tree included in the project or are those areas untouched?

**Answer: The dead Cypress tree closer to the house and area taped off are not part of the clearing area associated with this project.**

2. What is the anticipated start date for construction? Are there any schedule restrictions or permit conditions affecting the time for completion?

**Answer: Anticipated start date for construction is January 2024. There are no schedule restrictions or permit conditions affecting the time for completion.**

3. Please clarify the construction access for the Alternate work. The plans appear to indicate that the site would be accessed between two residences (1950 & 1956 Eventide Avenue). Has the County made arrangements with the property owners or is this the Contractor's responsibility?  
**Answer: Refer to the Bid Document Exhibit D – Temporary Construction Easement.**

4. Please clarify the construction access for the Alternate work. Can Eventide Ave be used for access?  
**Answer: Refer to the Bid Document Exhibit D – Temporary Construction Easement. Access is at 1950 Eventide Avenue.**

5. Due to the complexity and/or uncertainty of the site access and clearing requirements we kindly request that a pre-bid meeting onsite with the Engineer be scheduled. Is this something that can be arranged prior to the bid?  
**Answer: Construction access routes are shown on plans. Photos showing the Access Alpine Groves Park area and Access to Alternate Area (per Bid Document Exhibit D – Temporary Construction Easement) are attached to this Addendum No site visit will be scheduled.**

6. Regarding P. 9 #2 – Bedding – specifications are for a 6" layer of Bedding Stone, but the Gradation for FDOT Bedding (that the County named specifically) is 1" – 10" w/ 100% < 12". It won't fit in a 6" blanket. The plans call for 'gravel' under the Bank & Shore. This isn't what is in the Specs, and there is no detail for its size. This does NOT follow Section 530 of the FDOT's Road & Bridge Manual. Those Standards would call for 1' of Bedding to 2.5 – 3' of Riprap.  
**Answer: Technical Specifications Section 3:1.D.2 Bedding Stone (Bid Item 4.2), first paragraph on Page 9 is revised to specify a one foot (1') layer of bedding stone. The quantity of Bid Item 4.2 has been increased to 430 tons. Refer to "Revisions/Clarifications #1 and #2 above.**

Revised Exhibit C has been uploaded to [www.DemandStar.com](http://www.DemandStar.com) and included with this Addendum.

**Questions/Answers:**

The County provides the following answers to the questions submitted below:

1. We understand that the deadline for questions was October 31, 2023. Unfortunately, we have been informed by multiple manufacturers that the minimum order for the CA 0.31 treatment of the 2x6's be called for on the handrails is 8,000 pieces, does not matter the length. The normal (CA) treatment of a 2x6 is 0.15 pcf. Will this treatment level be acceptable for use on this project? Please advise how you would like to proceed.

**Answer: See "Revisions/Clarifications #2" above.**

**Questions/Answers:**

The County provides the following answers to the questions submitted below:

1. We understand that the deadline for questions was October 31, 2023. Unfortunately, we have been informed by multiple manufacturers that the minimum order for the CA 0.31 treatment of the 2x6's be called for on the handrails is 8,000 pieces, does not matter the length. The normal (CA) treatment of a 2x6 is 0.15 pcf. Will this treatment level be acceptable for use on this project? Please advise how you would like to proceed.

**Answer:** See "Revisions/Clarifications #2" above.

All costs connected with the one (1) time mobilization and demobilization of all CONTRACTOR'S employees and equipment and all costs connected to obtainment of a performance bond for the Work are to be included in the lump sum price indicated on CONTRACTOR's bid proposal for Bid Item 1, as well as all other costs associated with performance of the work (e.g., bonding and insurance requirements, erosion and sediment control, surveys, additional signage) and not addressed in other bid items.
2. Sixty percent (60%) of the lump sum payment will be qualified for payment to CONTRACTOR upon completion and acceptance by OWNER of a minimum of 25 feet of revetment; the remaining forty percent (40%) shall be qualified for payment upon completion of demobilization and OWNER acceptance of Site Restoration.

#### B. Clearing and Grubbing (Bid Item 2)

C. Fill and Grading (Bid Item 3.1 and Bid Item 3.2)

1. All costs connected with providing, transporting, and placement of sand fill material needed to achieve the finished grades as shown on the Drawings are to be included in the unit price indicated on CONTRACTOR's bid proposal for Bid Item 3.1. The conversion from cubic yards to US tons shall be: 1.44 US tons = 1.00 cubic yards.
2. CONTRACTOR shall use only clean fill material, free from clay, silt, organic matter, and debris such as trash, debris, automotive parts, asphalt, construction materials, concrete block with exposed reinforcement bars, and soils contaminated with any toxic substance in toxic amounts, in accordance with Section 307 of the Clean Water Act. All fill material is subject to OWNER approval. CONTRACTOR shall submit a representative sample ( $\approx 20$  in<sup>3</sup> $\pm$ ) of the proposed sand fill to OWNER for acceptance prior to delivery of sand to the site. If CONTRACTOR deposits any fill outside the authorized fill template, OWNER may require CONTRACTOR to remove or redeposit such misplaced material as directed by OWNER.
3. CONTRACTOR shall provide weight tickets for each truckload of sand fill delivered to the site – as may be accepted by OWNER – citing the weight of material in the truck, the date of delivery, and the approximate location of where the sand is placed. With CONTRACTOR's monthly request for payment under Bid Item 3.1, CONTRACTOR shall provide OWNER with copies of all weight tickets, which shall be the basis of payment.
4. During construction, by 10 a.m. each day, CONTRACTOR will provide to OWNER (by email) a daily log including (1) a summary table of the volume of all truckloads of sand delivered to the site during the prior day including the location of placement during the day and (2) the total tonnage of sand delivered through the prior day. The Bid Schedule reflects the estimated quantity of fill required to complete the work; payment shall be made based on actual quantities used. All costs connected with rock revetment construction are to be included in the unit prices indicated on CONTRACTOR's bid proposal for Bid Item 4.1 through 4.3 as shown in the Drawings and described below.

1. Filter Fabric (Bid Item 4.1): CONTRACTOR shall provide and place filter fabric, consistent with Sections 514 and 985 of FDOT Specifications. The filter fabric shall be Type D-2, per FDOT Specifications, as accepted OWNER. CONTRACTOR shall provide means to hold the filter fabric in place prior to gravel placement, subject to acceptance by OWNER; however, CONTRACTOR shall remove all materials used to install the filter fabric such as rubber clamps, fasteners, or any other temporary or permanent framing material utilized in the installation of the filter fabric.

The seams of the filter fabric shall be sewn with thread of a material meeting the chemical requirements of the filter fabric or shall be bonded by cementing or by heat. The sheet of filter fabric shall be attached at the factory or another approved location to form continuous sheets. The edges of the filter fabric shall be finished to prevent the deterioration of the outer filter fabric. Storage and handling of filter fabric is required to be in accordance with the manufacturer's recommendations; filter fabric shall be protected from direct sunlight, ultraviolet rays, excessive temperatures, mud, dirt, dust, and debris.

Filter fabric shall be placed against grade as shown on the Drawings. At the time of installation, filter fabric shall be rejected if it has defects, rips, holes, flaws, deterioration, or damage incurred during manufacture, transportation, or storage. The grade to receive filter fabric shall be prepared by CONTRACTOR to remove any existing obstructions or debris protruding greater than 1 inch above grade. The fabric shall be placed smooth and free of tension, stress, folds, wrinkles, or creases. The fabric shall be protected at all times during construction from contamination and, if contaminated, shall be replaced with uncontaminated fabric. Any damage to the fabric during its installation or during placement of rock shall be replaced by CONTRACTOR at no cost to OWNER.

The filter fabric shall be protected from damage due to the placement of rock by limiting the height of drop of rock or by use of other placement techniques. Before placement of rock, CONTRACTOR shall demonstrate that the placement technique will not damage the filter fabric. Filter fabric shall be placed such that the placement of the overlaying rock does not excessively stretch the filter fabric, tear the filter fabric, or pull the overlap or seam apart. Filter fabric shall be overlapped a minimum of four feet (4') at the ends over the top of the bedding stone as shown on the Drawings.

With CONTRACTOR's monthly request for payment under Bid Item 4.1, the quantity of filter fabric installed, as estimated by CONTRACTOR and approved by OWNER, shall be eligible for payment.

2. **Bedding Stone (Bid Item 4.2):** Prior to placement of armor stones, CONTRACTOR shall provide and place on top of the filter fabric a 12" layer of Bedding Stone consistent with FDOT Specification 530-2.1.4 Bedding Stone. Bedding Stone shall have a bulk specific gravity of not less than 1.90 and shall be reasonably free from thin, flat, and elongated pieces.

CONTRACTOR shall provide weight tickets for each truckload of bedding stone delivered to the site – as may be accepted by OWNER – citing the weight of material in the truck and the date of delivery. With CONTRACTOR's monthly request for payment under Bid Item 4.2, CONTRACTOR shall provide OWNER with copies of all weight tickets, which shall be the basis of total payment, as well as the estimated quantity of bedding stone installed during the monthly pay period; only the quantity installed, as approved by OWNER, shall be eligible for payment.

3. **Armor Stone (Bid Item 4.3):** Armor stone shall be consistent with FDOT Specification 530-2.1.3.1 Rubble (Bank and Shore Protection) where 50% of the rock provided by CONTRACTOR is greater than 290 lbs. The unit weight of armor stone shall be at least 145lb/cf, and the stone shall be free from cracks, seams, and other defects that would tend to increase unduly deterioration from natural causes. The armor stone shall not contain stone with a length (l, greatest dimension) to thickness (d, the minimum dimension) ratio (l/d) greater than 3. CONTRACTOR will place each armor stone with the greatest dimension perpendicular to the shoreline and such that it is bearing against adjacent stones, subject to acceptance by OWNER.

A drop-test and weight-test of the armor stone shall be performed by CONTRACTOR in the presence of OWNER. In the event of the non-availability of OWNER, CONTRACTOR may perform the test and certify to OWNER that the stone being shipped complies with these specifications. The test sample — comprising a minimum of 5 stones — shall be representative of the stone being shipped and will be the first shipment of stone as it's being loaded. Failure of the test on the first sample stone and the subsequent sample stone is cause for rejection of the quarry and/or quarrying process. Any stone which fails the test shall not be incorporated into the work. Any additional tests required because of failure of the first test sample will be made at no cost to OWNER. The drop-test shall entail CONTRACTOR elevating and dropping each armor stone in the sample a minimum of 10 feet onto a rigid surface or second stone of comparable size; stones shall pass the weight-test if the stones remain intact with no breakage or with minimal surface breakage. A weight-test shall entail weighing an unloaded truck and then immediate weighing of the same truck after loading the test sample. Average dimensions (three spatial dimensions) of each stone in the sample shall be measured. The test shall include a report, which shall indicate (1) whether all stone passed the drop-test, (2) the loaded and unloaded truck weights and the net weight of the sample, (3) the average dimensions measured for each stone in the sample, (4) the weight of each stone, and (5) the specific gravity of the stone.

CONTRACTOR shall provide weight tickets for each truckload of armor stone delivered to the site – as may be accepted by OWNER – citing the weight of material in the truck and the date of delivery. With CONTRACTOR's monthly request for payment under Bid Item 4.3, CONTRACTOR shall provide OWNER with copies of all weight tickets, which shall be

the basis of total payment, as well as the estimated quantity of armor stone installed during the monthly pay period; only the quantity installed, as approved by OWNER, shall be eligible for payment.

E. Wood Fence (Bid Item 5)

1. CONTRACTOR shall provide and install a new wood fence at the location identified on the Drawings. The lump sum payment will be qualified for payment upon completion of Wood Fence.
2. Wood: All wood shall be nominal sizes as shown on the Drawings, dressed sizes shall be as published by the National Design Specifications for Wood Construction, Nominal and Minimum Dressed Sizes of Sawn Lumber. All wood shall be pressure treated in accordance with AWWA Standard U1-23 use category UC5C.
  - a) Wood for 4x4 posts shall be No. 2 grade Southern Yellow Pine and shall be pressure treated in accordance with AWWA Standard U1 UC4A Ground Contact. Posts shall have grade marks identified by a branding into the wood and/or tagged.
  - b) Wood for 2x6 rails and rail caps shall be No. 2 grade Southern Yellow Pine and shall be pressure treated in accordance with AWWA Standard U1 UC3B.
  - c) Moisture content after treatment shall not exceed 19%. All wood shall be free of knots, boreholes, decay, or any other damage. Each piece of lumber shall be identified by the grade and treatment mark of a recognized organization approved by the Southern Pine Inspection Bureau (SPIB) Standard Grading Rules for Southern Pine. All exposed edges and faces of the rails and rail cap shall be sanded smooth to remove splinters and sharp edges.
3. Wood Post Installation: All wood posts shall be embedded a minimum of three (3) feet into a concrete footing 10 inches in diameter and 2 feet deep.
4. Metal Panel: The metal panel within the fence shall consist of galvanized steel with 2" vertical x 4" horizontal openings. The steel rods shall be a minimum of 4 gauge in size.
5. Hardware: Rail cap shall be fastened with two (2) equally spaced 10d stainless steel spiral shank nails at each post. Rails shall be fastened with two (2) equally spaced 3" #9 Ceramic Plated Wood Deck Screws into each 4x4 post. The Metal Panel shall be fastened with two #9 x 1-1/4 galvanized fence staples spaced at 2 ft on center into each rail. Nails and screws shall be driven flush with wood. All exposed edges and faces of the rail cap and rails, shall be sanded smooth to remove splinters and sharp edges.

F. Plantings (Bid Item 6)

1. CONTRACTOR shall provide and plant wetland plants as shown on the Drawings. The wetland vegetation plantings shall consist of 4-inch plants of Sandcord (*Spartina bakeri*) spaced at 18-inches within the planting areas shown on the Drawings. CONTRACTOR shall provide, if requested by OWNER, samples of plants to be installed from the actual nursery or supplier in advance of initial plant delivery to the site. All plants delivered and stored at the Work Area shall be protected against desiccation, thermal stress, disease, and physical damage. Plants deemed to have been improperly handled, packed,

transported, and/or stored will be rejected by OWNER and replaced by CONTRACTOR at no additional costs to OWNER. All plants shall be "healthy and vigorous" according to horticultural standards. All plants, both upland and wetland, shall have a fully developed root ball, disease free, and moist with white or light beige roots. Brown, black or rotting root balls shall be rejected. Plants showing signs of stress, either from drought, pest infestation, disease or any visible mishandling shall be rejected by OWNER and shall be replaced at CONTRACTOR's expense. Plants not meeting these plant condition provisions will be rejected by the ENGINEER. Plants rejected under this Specification will not be considered as delivered to the site and, therefore, not eligible for payment. OWNER shall be given appropriate notification prior to any and each plant delivery to allow for verification of plant count.

2. At the end of each work day all debris, trays, buckets, etc. must be removed from the working areas. CONTRACTOR shall provide OWNER with access to all nursery facilities for the purpose of observation of the propagation and growing methods being employed by CONTRACTOR. CONTRACTOR will be allowed to water-in (initially irrigate) all newly installed planting units according to a CONTRACTOR prepared irrigation schedule. CONTRACTOR shall water the upland plants according to the following post-planting schedule:
  - 1st month – 3 times per week
  - 2nd month – 2 times per week
  - 3rd month – 1 time per week.

CONTRACTOR will be responsible for all aspects of the initial irrigation including compliance with all environmental permitting regulations, requirements, and conditions stated in the permits which may address maintenance irrigation and installation activities. CONTRACTOR will be responsible for the provision of all irrigation water required. CONTRACTOR shall apply freshwater (potable only) to the planting zones using a non-scouring spray applicator. CONTRACTOR shall make all necessary arrangements with the appropriate local agencies if the use of local hydrants in the area is proposed. The application of maintenance fertilization during the 90-day warranty period may be undertaken by CONTRACTOR at CONTRACTOR's discretion. The cost of any and all fertilization shall be included in the Lump Sum price under Bid Item 5. Maintenance fertilization, if employed, will be undertaken in a manner which complies with all environmental permits applicable to the Work. CONTRACTOR will be allowed to maintenance fertilize the installed planting units according to the CONTRACTOR-prepared and OWNER-accepted fertilization schedule. Whether CONTRACTOR chooses to maintenance fertilize or not, compliance with all provisions of these Specifications including but not limited to, the survival guarantee and replanting shall be met.

3. CONTRACTOR shall warranty all plants for 90 days after planting. Within areas of questionable growth/success results, OWNER may reject plants due to inadequate root penetration for possible replant by CONTRACTOR. Up to ten plants within each questionable planting area may be randomly selected to be dug up to check root growth. Eighty percent of selected plants shall have achieved root penetration of 9" or greater for wetland species. Planting survival shall be deemed a success if both individual planting unit survival and root penetration are met. If any of the above success criteria are not met, as determined by OWNER, CONTRACTOR shall replant

nonconforming units with viable (and within Specifications) planting units of the same type in all areas considered to be deficient according to the planting unit success criteria. The replanting of planting units will be the sole responsibility of CONTRACTOR and will be completed at no additional cost to OWNER. All original warranty and survival Specifications and requirements shall apply to replanted planting units.

G. Site Restoration (Bid Item 7)

1. All costs connected with site restoration are to be included in the lump sum price indicated on CONTRACTOR's bid proposal for Bid Item 7. CONTRACTOR shall restore the site to a pre-construction condition or better. This restoration shall include the restoration of all grades and repair of any existing structures, landscaping, or vegetation (damaged by CONTRACTOR) as approved by OWNER. All removed materials shall be hauled away and deposited at an FDOT approved, upland disposal site by CONTRACTOR. CONTRACTOR shall restore all pavement, structures, and other areas disturbed by construction activities. CONTRACTOR shall employ reasonable care in preparing the access to the site and shall restore or repair any existing features removed or damaged from access to the site. ### ADDENDUM #3

November 7, 2023

**To:** Prospective Bidders  
**From:** St. Johns County Purchasing Department  
**Subject:** Bid No: 1538; Alpine Groves Park Shoreline Restoration – FDEP #23FRP10

This Addendum #3 is issued for further Bidders' information and is hereby incorporated into the Bid Documents. Each Bidder must incorporate any and all revisions, clarifications, and/or supplemental information provided in all issued addenda with the submitted Bid. Bidders must submit a copy of each signed addendum with their Bid as provided in the Bid Documents.

#### Revisions/Clarifications:

The County provides the following revisions and/or clarifications to be incorporated into the Bid Documents:

1. Technical Specifications Section 3.1.D.2 Bedding Stone (Bid Item 4.2), first paragraph on Page 9, is revised as follows:

“Prior to placement of armor stones, CONTACTOR shall provide and place on top of the filter fabric a one foot (1') layer of Bedding Stone consistent with FDOT Specification 530-2.1.4 Bedding Stone. Bedding Stone shall have a bulk specific gravity of not less than 1.90 and shall be reasonably free from thin, flat, and elongated pieces.”

2. **Revised Attachment “A” – Schedule of Values** is provided with this Addendum revising Base Bid Item 4.2 to specify a 1-ft layer of bedding stone and increasing the quantity to 430 tons.

Failure to use the Revised Attachment “A” – Schedule of Values Form may result in the submittal being deemed non-responsive.

#### Questions/Answers:

The County provides the following answers to the questions submitted below:

1. After the pre-bid meeting this morning we went out to the park and looked at the area to be restored. At the meeting it was mentioned that some of the trees on top of the bluff needed to be removed as they are unsafe, we got that figured out. My question is closer to the house there is an older dead Cypress tree and an area that is taped off with a sign stating the presence of underground wasps. Is the clearing of the underground wasp area and the tree included in the project or are those areas untouched?

**Answer: The dead Cypress tree closer to the house and area taped off are not part of the clearing area associated with this project.**

2. What is the anticipated start date for construction? Are there any schedule restrictions or permit conditions affecting the time for completion?

**Answer: Anticipated start date for construction is January 2024. There are no schedule restrictions or permit conditions affecting the time for completion.**

3. Please clarify the construction access for the Alternate work. The plans appear to indicate that the site would be accessed between two residences (1950 & 1956 Eventide Avenue). Has the County made arrangements with the property owners or is this the Contractor's responsibility?

**Answer: Refer to the Bid Document Exhibit D – Temporary Construction Easement.**

4. Please clarify the construction access for the Alternate work. Can Eventide Ave be used for access?

**Answer: Refer to the Bid Document Exhibit D – Temporary Construction Easement. Access is at 1950 Eventide Avenue.**

5. Due to the complexity and/or uncertainty of the site access and clearing requirements we kindly request that a pre-bid meeting onsite with the Engineer be scheduled. Is this something that can be arranged prior to the bid?

**Answer: Construction access routes are shown on plans. Photos showing the Access Alpine Groves Park area and Access to Alternate Area (per Bid Document Exhibit D – Temporary Construction Easement) are attached to this Addendum No site visit will be scheduled.**

6. Regarding P. 9 #2 – Bedding – specifications are for a 6" layer of Bedding Stone, but the Gradation for FDOT Bedding (that the County named specifically) is 1" – 10" w/ 100% < 12". It won't fit in a 6" blanket. The plans call for 'gravel' under the Bank & Shore. This isn't what is in the Specs, and there is no detail for its size. This does NOT follow Section 530 of the FDOT's Road & Bridge Manual. Those Standards would call for 1' of Bedding to 2.5 – 3' of Riprap.

**Answer: Technical Specifications Section 3.1.D.2 Bedding Stone (Bid Item 4.2), first paragraph on Page 9 is revised to specify a one foot (1') layer of bedding stone. The quantity of Bid Item 4.2 has been increased to 430 tons. Refer to "Revisions/Clarifications #1 and #2 above.**

The Davis-Bacon and related Acts (DBRA) require that contractors and subcontractors performing on covered contracts pay any and all laborers and mechanics employed under the Contract, no less than the locally prevailing wages and fringe benefits for corresponding work on similar projects in the area, as provided by the Department of Labor, and as shown on **Exhibit "G"** Davis-Bacon Act, General Decision FL20230135 – Heavy, attached hereto.

Recordkeeping

Under the Davis-Bacon and related Acts, covered contractors must maintain payroll and basic records for all covered laborers and mechanics during the course of the work and for a period of three years thereafter. Records to be maintained include:

- Name, address, and social security number of each worker
- Each worker's work classifications
- Hourly rates of pay, including rates of contributions or costs anticipated for fringe benefits or their cash equivalents
- Daily and weekly numbers of hours worked
- Deductions made
- Actual wages paid
- Detailed information regarding bona fide fringe benefit plans and programs, including records that show that the plan or program has been communicated in writing to the laborers and mechanics affected
- If applicable, detailed information regarding approved apprenticeship or trainee programs

#### Reporting

Each covered contractor and subcontractor must, on a weekly basis, provide the contracting agency a copy of all payrolls providing the information listed above under "Recordkeeping" for the preceding weekly payroll period, except that that full social security numbers and home addresses shall not be included on weekly transmittals, and instead the payrolls only need to include an individually identifying number for each worker (e.g., the last four digits of the worker's social security number). Each payroll submitted must be accompanied by a "Statement of Compliance" using page 2 of Form WH-347 Payroll (For Contractors Optional Use), or any form with identical wording, certifying compliance with applicable requirements. The statement is to be signed by the contractor or subcontractor, or by an authorized officer or employee of the contractor or subcontractor who supervises the payment of wages, and delivered to a representative of the federal or state agency in charge. This must be submitted within seven days after the regular pay date for the pay period. Form WH-347 and instructions are available at the following links: <https://www.dol.gov/whd/forms/wh347.pdf> and <https://www.dol.gov/whd/forms/wh347instr.htm>

#### **44) CONTRACT WORK HOURS AND SAFETY STANDARDS**

Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.
- (2) Under 40 U.S.C. § 3702, each Vendor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week.
- (3) The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of property or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- (4) Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

#### **45) PUBLIC RECORDS**

- A. The cost of reproduction, access to, disclosure, non-disclosure, or exemption of records, data, documents, and/or materials, associated with this Agreement shall be subject to the applicable provisions of the Florida Public Records Law (Chapter 119, Florida Statutes), and other applicable State and Federal provisions. Access to such public records, may not be blocked, thwarted, and/or hindered by placing the public records in the possession of a third party, or an unaffiliated party.
- B. In accordance with Florida law, to the extent that Contractor's performance under this Contract constitutes an act on behalf of the County, Contractor shall comply with all requirements of Florida's public records law. Specifically, if Contractor is expressly authorized, and acts on behalf of the County under this Agreement, Contractor shall:

- (1) Keep and maintain public records that ordinarily and necessarily would be required by the County in order to perform the Services;
- (2) Upon request from the County's custodian of public records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost as provided in Chapter 119, Florida Statutes, or as otherwise provided by law;
- (3) Ensure that public records related to this Agreement that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by applicable law for the duration of this Agreement and following completion of this Agreement if the Contractor does not transfer the records to the County; and
- (4) Upon completion of this Agreement, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records required by the County to perform the Services.

If the Contractor transfers all public records to the County upon completion of this Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of this Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of public records, in a format that is compatible with the County's information technology systems.

Failure by the Contractor to comply with the requirements of this section shall be grounds for immediate, unilateral termination of this Agreement by the County.

CONFLICT OF INTEREST DISCLOSURE FORM

Project (IFB) Number/Description: IFB No 1538; Alpine Groves Park Shoreline Restoration - FDEP #23FRP10

The term "conflict of interest" refers to situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting a contractor's professional judgment in completing work for the benefit of St. Johns County ("County"). The bias such conflicts could conceivably impart may inappropriately affect the goals, processes, methods of analysis or outcomes desired by the County.

Contractors are expected to safeguard their ability to make objective, fair, and impartial decisions when performing work for the benefit of the County. Contractors, therefore must there avoid situations in which financial or other considerations may adversely affect, or have the appearance of adversely affecting the Contractor's professional judgement when completing work for the benefit of the County.

The mere appearance of a conflict may be as serious and potentially damaging as an actual distortion of goals, processes, methods of analysis, or outcomes. Reports of conflicts based upon appearances can undermine public trust in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be disclosed and evaluated with the same vigor as actual conflicts.

It is expressly understood that failure to disclose conflicts of interest as described herein may result in immediate disqualification from evaluation or immediate termination from work for the County.

Please check the appropriate statement:

- I hereby attest that the undersigned Respondent has no actual or potential conflict of interest due to any other clients, contracts, or property interests for completing work on the above referenced project.
