6. PORPOISE POINT DRAINAGE. THIS ITEM IS BEING BROUGHT BEFORE THE BOARD PER REQUEST OF THE CHAIR. THE PORPOISE POINT COMMUNITY IS AN AREA THAT EXPERIENCES FREQUENT FLOODING DURING RAIN EVENTS. DURING HIGH INTENSITY AND LARGER EVENTS, THE FLOODING IS SEVERE AND CAN LAST FOR AN EXTENDED DURATION. THE COMMUNITY IS RELATIVELY LOW IN ELEVATION CAUSING FLOODING TO BE INFLUENCED BY TIDES. ADDITIONALLY, IN THE PAST TWO YEARS, FLOODING HAS BEEN FURTHER EXACERBATED BY COASTAL EROSION CAUSED BY HURRICANES MATTHEW AND IRMA. AS A PART OF THE PUBLIC WORKS COUNTYWIDE STORM WATER INITIATIVE (CSI), STAFF HAS CONCEPTUALLY IDENTIFIED IMPROVEMENTS DESIGNED TO ALLEVIATE THE SEVERITY OF FLOODING IMPACTS BY RESTORING HISTORICAL SWALE CONVEYANCES AND CONSTRUCTING NEW POSITIVE OUTFALLS. A DETAILED ENGINEERED PROJECT IS REQUIRED TO FINALIZE THE PROJECT ELEMENTS, VERIFY PROJECT ASSUMPTIONS, AND ENGINEER THE IMPROVEMENTS. THE PROJECT DEVELOPMENT INCLUDES SITE SURVEY, GEOTECHNICAL DESIGN, AND PERMITTING WITH A DELIVERABLE THAT INCLUDES FINAL CONSTRUCTION PLANS AND AN ENGINEER'S OPINION OF COST, TO SOLICIT BIDS FOR CONSTRUCTION. PROJECT DESIGN COST IS ESTIMATED AT \$150,000 AND WILL TAKE APPROXIMATELY 6 TO 9 MONTHS TO COMPLETE. THE CONSTRUCTION COSTS ARE CONCEPTUALLY ESTIMATED TO BE APPROXIMATELY \$600,000 AND WILL BE REFINED DURING THE DESIGN PROCESS AS ASSUMPTIONS ARE VERIFIED. CONSTRUCTION IS ESTIMATED TO TAKE AN ADDITIONAL 12 MONTHS AFTER COMMENCEMENT. THE PORPOISE POINT COMMUNITY IS REQUESTING THE COUNTY TO COMMENCE ENGINEERING DESIGN AND CONSTRUCTION OF THE CONCEPTUALLY IDENTIFIED IMPROVEMENTS. THE CURRENT FY 2018 APPROVED BUDGET DOES NOT HAVE THE NECESSARY FUNDS TO COMMENCE THESE REQUESTS. STAFF SEEKS DIRECTION OF THE BOARD TO TAKE THE NEXT STEPS

Jay Brawley, P.E., AICP County Engineer, presented details on the drainage concerns in the Porpoise Point community and provided next steps, via PowerPoint.

Brad Bulthuis entered the meeting at 11:03 a.m.

McCormack re-entered the meeting at 11:07 a.m.

(11:09 a.m.) Smith questioned complex permitting and whether additional areas of retention were needed or would the swales suffice. He also commented on water quality issues. Brawley responded. Smith requested clarified on whether the swales would be cleaned out; therefore, ending up with a positive outfall/outflow; the reduction of inundation, and the probability of approval of easements on private property. Brawley provided answers to Smith's questions. Smith stated that he was not in favor of imminent domain and mentioned possible reimbursement by FEMA.

Soria left the meeting at 11:12 a.m.

(11:13 a.m.) Sacha Martin, 133 Coastal Hollow Circle, thanked Dean, Shinkre, and Brawley for listening to the residents of Porpoise Point and looking for a solution to the drainage problem.

(11:14 a.m.) Victor Addison, 211 Porpoise Point Drive, appreciated the support of the Dean, Waldron, the County Engineer, and Director of Public Works and provided information on the after effects of the storm surges.

(11:17 a.m.) Tom Reynolds, 880 A1A Beach Boulevard, urged the Board to assist the residents of Porpoise Point and suggested a berm or gates to deter the storm surges.

(11:19 a.m.) Smith questioned whether the outfall had been investigated and whether the resident would approve a culvert. Brawley responded that gravity may be an option.

(11:21 a.m.) Johns commented on the Commissioners' approval of the community; County expectations versus expectations of the residents; and spending taxpayer dollars. He noted that there were at least 30 areas within the County that had significant drainage or infrastructure issues, and that staff should investigate which areas were priorities. He spoke on the responsibility of the Board, County staff, and the residents; and the process for choosing one project over another, without a measureable expectation.

(11:28 a.m.) Dean stated that he requested the item be added to the agenda and the basis for the request. Discussion ensued on the process of choosing projects and the request; upkeep of the initial design, including swales and culverts; surface density; costs of maintaining swales; and the permits. Brawley responded that those areas of the County without complaints were not prioritized and provided information on silt and percolation.

(11:40 a.m.) Motion by Dean (later withdrawn), seconded by Morris, to direct staff to proceed with engaging an engineering consulting firm to design, permit and prepare a plan suitable for construction to improve the drainage and reduce flooding impacts in the Porpoise Point area, and authorizing the transfer of up to \$150,000 from the General Fund reserves.

Smith requested an opportunity for discussion.

(11:41 a.m.) Neil Shinkre, Public Works Director, provided answers to the questions brought up during the discussion, which included that 10% of ditches were maintained with the current resources/staff; with the lack of additional funding to maintain the ditches, the department prioritizes; 12,000 feet of swales were in the Porpoise Point community; the need for swale reconstruction, which was estimated between \$150,000-\$250,000, for reestablishing the swales and positive outflow.

(11:43 a.m.) Smith stated he would rather invest \$150,000 in cleaning the ditches. Discussion ensued.

(11:46 a.m.) Waldron questioned the study, effectiveness of the design, and stated he was in favor of the survey. Brawley provided clarification on what had been completed by the County staff, to date.

(11:49 a.m.) Dean withdrew his previous motion and provided the following motion: Motion by Dean (later withdrawn), seconded by Morris, to direct staff to complete the necessary surveys; and based on the results of those surveys, complete the necessary maintenance and cleaning of the swales; and transfer up to \$150,000 from the General Fund reserves to accomplish these tasks.

(11:50 a.m.) Wanchick questioned the costs, provided by Shinkre, as being between \$150,000 and \$250,000. He stated that a cost could be brought back to the Board; however, he was hesitant to begin a project that may be underfunded.

(11:50 a.m.) Dean withdrew his previous motion and provided the following motion: **Motion by Dean, seconded by Waldron, to direct staff to do the necessary surveys of the Porpoise Point swales and bring back to the Board the results from those surveys; at which time, the Board may consider moving forward with the cleaning of the swales and the costs involved.**

(11:58 a.m.) **Subsequently, the motion carried 5/0.**

Wanchick added that there was a reasonable expectation that the funding would need to be transferred out of reserves, due to the current lack of funding.

(11:52 a.m.) Johns asked about the other parts of the County with drainage concerns and requested, from staff, a prioritized list of projects. Dean responded that when residents brought him concerns, if he felt they were severe enough, he would bring them to the Board, whether they were in Fruit Cove, Hastings, or Vilano Beach. Johns stated that he would not encourage residents believing that their concern would take priority based on the number of complaints or how loud they complained; noting that projects needed to be prioritized by staff, with regards to funding.

(11:54 a.m.) Shinkre requested direction from the Board, noting the previously presented Countywide Stormwater Initiatives (CSI), which included thirty areas with stormwater drainage concerns, but with a revenue-based budget; said there were no operational funds to address these issues.

(11:56 a.m.) Smith questioned the eligibility for federal funding. Brawley stated the drainage issue had occurred over time, but he would transmit to the State, as it was tied to Hurricane Irma. Additionally, he noted that if the swales were cleaned, the soil would be hauled offsite and no decisions had been made as to where the soil would go or options for utilization.

Bulthuis left the meeting. Andrews and Lavie re-entered the meeting at 11:58 a.m.

(05/15/18 - 14 - 11:58 a.m.)

He compared the proposal to the development on the Baymeadow's property. He read the County's mission statement regarding economic development; noted the loses in profit at the County's golf course; and stated that he was unable to sustain the golf course and continue to carry the loses as

a one man investor. He provided additional information on the modifications and changes that had been made over the past two years. Discussion ensued around questions by the Board on DRI vested rights for traffic; property values; a list, including an 8-ft, pre-fabricated wall; the Neighborhood Bill of Rights meeting; the rejected settlement agreement; and reduction of density and height changes.

(5:32 p.m.) Morris thanked Miller for his willingness to reduce the density by 50 units; provided his personal experience with owning property; and commented positively on Vicar's, as a 5-star, age-restricted community.
