

**Minutes of Meeting  
Board of County Commissioners  
St. Johns County, Florida  
Special Meeting  
County Administration Building  
500 San Sebastian View  
St. Augustine, Florida 32084  
August 19, 2026 - 9:00 a.m.**

---

**CALL TO ORDER**

Commissioner Murphy called the special meeting to order at 9:00 a.m.

Present: Clay Murphy, District 3, Chair  
Ann Taylor, District 5, Vice Chair  
Christian Whitehurst, District 1  
Sarah Arnold, District 2  
Krista Joseph, District 4

Staff Present: Joy Andrews, County Administrator  
Brad Bradley, Deputy County Administrator  
Jesse Dunn, Deputy County Administrator  
Rich Komando, County Attorney  
Lex Taylor, Deputy County Attorney  
Kealey West, Deputy County Attorney  
Crystal Smith, Deputy Clerk

**ROLL CALL**

The clerk called the roll.

**INVOCATION**

Commissioner Murphy gave the invocation.

**PLEDGE OF ALLEGIANCE**

Joe Giammanco, Lieutenant Commander, United States Coast Guard, led the Pledge of Allegiance.

**Motion by Taylor, seconded by Murphy, carried 5/0, to approve the Special Meeting Agenda, as submitted.**

**Yea: Taylor, Murphy, Whitehurst, Arnold, Joseph  
Nay: None**

Taylor congratulated Commissioner Joseph on her re-election.

1. Public Hearing - ENCERT 2026-05, Heritage Development East. The 2026 amendments to Sections 163.3162 and 163.3164, Florida Statutes establish a process allowing property owners to request certification that a property qualifies as an Agricultural Enclave before submitting a development application. Heritage Development Company of NE Florida, LLC, submitted an application to certify Parcel ID Nos. 136090-0005 and 136640-0000 as an Agricultural Enclave. The property is approximately 615.41 acres and is located directly east of Interstate 95 and south of State Road 207

The Board disclosed ex parte communications.

Kealey West, Deputy County Attorney, provided information on the purpose of the meeting and the statutory requirements.

Robert Walters, Attorney Representative for Heritage Development, presented the details of the item.

Discussion ensued on perimeter calculations, the number of units per acre, and the statutory requirements for the property to be agricultural.

Joe McAnarney spoke in opposition to the development and presented details to deny the item.

Carrie Hersel spoke in opposition to the development and highlighted the definition of parcels (Exhibit A).

Whitehurst requested clarification on the legal requirements for the provisional amendments regarding a parcel of land. Discussion ensued.

Walters provided rebuttal and explained the legal requirements for the certification aspect of the request.

**Motion by Taylor, seconded by Joseph, failed 2/3, with Whitehurst, Murphy, and Arnold dissenting, to deny Agricultural Enclave Certification Application ENCERT 2026-05, finding, based upon the competent substantial evidence contained in the record, that the subject parcel(s) do not satisfy the statutory definition of an agricultural enclave under Section 163.3164(4), Florida Statutes, and the requirements for certification under Section 163.3162(4), Florida Statutes; and direct the Office of the County Attorney to prepare the final written order, including findings of fact and conclusions of law supporting the Board's determination, as required by Section 163.3162(4), Florida Statutes, on facts that questions remain unanswered.**

**Yea: Joseph, Taylor**

**Nay: Whitehurst, Murphy, Arnold**

**Motion by Whitehurst, seconded by Arnold, carried 3/2, with Joseph and Taylor dissenting, to approve Agricultural Enclave Certification Application ENCERT 2026-05, upon finding that, based upon the competent substantial evidence contained in the record, the application demonstrates that the subject parcel(s) satisfy the statutory definition of an agricultural enclave contained in Section 163.3164(4), Florida Statutes, and the certification requirements of Section 163.3162(4)(a), Florida Statutes.**

**Yea: Whitehurst, Arnold, Murphy**

**Nay: Joseph, Taylor**

2. Public Hearing - ENCERT 2026-06, Heritage Development West. The 2026 amendments to Sections 163.3162 and 163.3164, Florida Statutes establish a process allowing property owners to request certification that a property qualifies as an Agricultural Enclave before submitting a development application. Heritage Development Company of NE Florida, LLC, submitted an application to certify Parcel ID Nos. 136635-0120, 137350-0010, and 140390-0000 as an Agricultural Enclave. The property is approximately 551 acres and is located west of Interstate 95 and south of State Road 207

The Board disclosed ex parte communications.

Robert Walters, Attorney Representative for Heritage Development, presented the details of the item.

William Fisher spoke in opposition to the request and expressed his concerns with the property being wetlands.

Joe McAnarney spoke in opposition to the development and presented details to deny the item.

Denver Cook voiced concerns about the impact the proposed growth would have on schools.

Rachel Trifiletti requested clarification on the bona fide agricultural use of the requested property.

Chris Farrell questioned whether the conditions described met all statutory requirements.

Jean Aklin spoke in opposition to the request and voiced concerns on traffic impacts and impacts on wildlife.

Paul DeFranco spoke in opposition to the request and expressed concerns that no evidence was provided to ensure the property was being used as agricultural land.

Carrie Hersel spoke in opposition to the request and explained the definition of a tax parcel.

Doctor Asplen, St. Johns County School Board Superintendent, provided information on the development's impact on schools and school concurrency.

Murphy expressed his position on the statutory requirements on agricultural enclaves.

Walters explained that the Property Appraiser classified the property as bona fide agricultural annually.

Whitehurst requested confirmation that staff ensured the application met all legal requirements for the property's agricultural use. West responded.

**Motion by Murphy, seconded by Whitehurst, carried 3/2, with Joseph and Taylor dissenting, to approve Agricultural Enclave Certification Application ENCERT 2026-06 upon finding that, based upon the competent substantial evidence contained in the record, the application demonstrates that the subject parcel(s) satisfy the statutory definition of an agricultural enclave contained in Section 163.3164(4), Florida Statutes, and the certification requirements of Section 163.3162(4)(a), Florida Statutes.**

**Yea: Murphy, Arnold, Whitehurst**  
**Nay: Joseph, Taylor**

3. Public Hearing - ENCERT 2026-01, N. Palm Valley Rd. Application for Agricultural Enclave Certification pursuant to Sections 163.3162 and 163.3164, Florida Statutes. This certification request includes approximately 4,462 acres. The subject property is located North of Nocatee Parkway, west of the Intracoastal Waterway, and east of the Duval County line

The Board disclosed ex parte communications.

Ellen Avery-Smith, Esquire, Rogers Towers, P.A., presented the details of the item, including the property's bona fide agricultural use and statutory requirements.

Don Fullerton, Prime AE Group, provided details on property use and the existing Future Land Use Map (FLUM).

Joseph asked whether the property was on the Duval County side. Avery-Smith clarified for the record that the property would be used for one unit per acre. Mike Roberson, Director of Growth Management, explained that Florida Statutes dictate the property's density and the number of units allowed per acre. Discussion ensued on the density of surrounding areas, hiring a forestry expert, units per acre, and statutes that would prevent the property to the north from being used as an agricultural enclave.

Kerri Gustauson spoke in opposition to the request and presented details to deny the item (Exhibit A).

Joe McAnarney spoke in opposition to the development and presented details to deny the item.

Nicole Valentine spoke in opposition to the request and voiced concerns about the statutory requirements for the property's perimeter.

Denver Cook questioned the classification of the intracoastal waterways and roadways and spoke in opposition to the request.

West explained the law for the intracoastal waterways and roadways.

Chuck Labanowski spoke in opposition to the request and expressed concerns about lot sizes.

Tamara Haleem spoke in opposition to the request with concerns about industrial land surrounding the property.

Mary Clarke spoke in opposition to the request with concerns about traffic congestion, water demand, school impacts, environmental impacts, and units per acre.

David Kelly spoke in opposition to the request and expressed concerns about infrastructure.

Edward Hernandez spoke in opposition to the request and voiced his concerns with traffic impacts and infrastructure.

Janice Sanya spoke in opposition to the request and requested a more detailed review of the statutory requirements.

Paul DeFranco spoke in opposition to the request and expressed his concerns with the expedited approval of the agricultural enclave applications.

Millie Morris spoke in opposition to the request and voiced concerns about environmental impacts on drinkable water and clear-cutting land.

Taylor Collins spoke in opposition to the request with concerns about environmental and infrastructure impacts.

Carrie Hersel spoke in opposition to the request and encouraged the applicant to provide proof of bona fide agricultural operations conducted on the property.

Chris Farrall spoke in opposition to the request and voiced concerns that the property did not meet statutory requirements (Exhibit B).

Natalie Dickson spoke in opposition to the request and voiced her concerns with environmental impacts.

Avery-Smith rebutted, explained that the application package met applicable requirements, requested that the Board rely on competent, substantial evidence based on expert testimony, and clarified, for the record, there would be no more than 4,462 units on the property.

Fullerton provided clarification on the survey portion of the application, including the development boundaries. Discussion ensued on the Duval County boundary line.

Whitehurst clarified that the developer built the parkway at their expense and explained that Ponte Vedra residents rejected the Florida Department of Transportation's A1A widening project.

**Motion by Joseph, seconded by Taylor, failed 2/3, with Arnold, Whitehurst, and Murphy dissenting, to deny Agricultural Enclave Certification Application ENCERT 2026-01 finding, based upon the competent substantial evidence contained in the record, that the subject parcel(s) do not satisfy the statutory definition of an agricultural enclave under Section 163.3164(4), Florida Statutes, and the requirements for certification under Section 163.3162(4), Florida Statutes; and direct the Office of the County Attorney to prepare the final written order, including findings of fact and conclusions of law supporting the Board's determination, as required by Section 163.3162(4), Florida Statutes, due to proof of it not being a certified agricultural work land, as well as the Community Planning Act for inadequate infrastructure.**

**Yea: Taylor, Joseph**

**Nay: Arnold, Whitehurst, Murphy**

**Motion by Murphy, seconded by Joseph, carried 4/1, with Arnold dissenting, to continue the item to September 1, 2026, BCC Meeting at 9:00 a.m., or soon thereafter.**

**Yea: Murphy, Joseph, Taylor, Whitehurst**

**Nay: Arnold**

Murphy requested *Board consensus to have staff bring back more information on the boundaries to the north end of the parcel. Consensus was given.*

**Motion by Joseph, seconded by Taylor, failed 2/3, with Murphy, Arnold, and Whitehurst dissenting, to hire an independent Forestry Company and to direct staff to look at the Community Planning Act.**

**Yea: Joseph, Taylor**

**Nay: Murphy, Whitehurst, Arnold**

## **COMMISSIONERS' REPORTS**

### Commissioner Joseph

No report.

### Commissioner Murphy

No report.

### Commissioner Taylor

Taylor thanked residents for their participation, acknowledged the unprecedented impact of Senate Bill 686 on St. Johns County, and expressed support for pursuing legal action to protect the County's interests and residents.

Commissioner Whitehurst

No report.

Commissioner Arnold

No report.

**COUNTY ADMINISTRATOR'S REPORT**

No report.

**COUNTY ATTORNEY'S REPORT**

No report.

REPORTS:

There were none.

CORRESPONDENCE:

There was none.

With there being no further business to come before the Board, the meeting adjourned at 1:00 p.m.

Approved September 1, 2026

BOARD OF COUNTY COMMISSIONERS  
OF ST. JOHNS COUNTY, FLORIDA

Clay Murphy, Chair

ATTEST: BRANDON J. PATTY,  
CLERK OF THE CIRCUIT COURT & COMPTROLLER

By: Crystal Smith  
Deputy Clerk

Carrie Hersel  
122 Village Grande Dr PV

This application is built on a fundamental **legal flaw**: the developer's reliance on administrative tax parcel boundaries to **define** the enclave. The courts have **consistently** held that **tax parcel boundaries** are created for **Property Appraiser convenience** and do **not** dictate land use, zoning, or regulatory boundaries under Florida Law. Using tax lines as a proxy for land use is an administrative **shortcut**, **not** a legally binding boundary.

Under this Statute an agricultural enclave requires legitimate, *bona fide* agricultural use **across** the claim—not just blanket coverage including raw uncultivated land.

Look specifically at **Tax Parcel 0522400000** along with several sub-parcels in this application. Historical satellite imagery clearly demonstrates that these acres **are not**, and **have not** been, engaged in *bona fide* commercial agricultural production. I challenge the applicant to produce sales records, harvesting receipts, or plot logs proving *bona fide* agricultural operations across **every single** acre of all these proposed tax parcels. Once you strip out that non-agricultural land, the entire application **collapses**.

Florida Statute 163 was **never** intended to allow developers to **cherry-pick** arbitrary tax maps to bypass local comprehensive plans. To establish a **true** baseline, the County should evaluate soil rating parcel maps and actual environmental boundary parcel maps. The boundaries **must** be redrawn using metes and bounds that reflect reality on the ground of how each acre is **truly** used.

What is the true **ultimate** boundary of this development? We already know about the 6k Duval acres approved to the west, but let's talk about the **elephant in the room**, which is the land to the north BJD Timberlands. That tax parcel was **conveniently** excluded from this application. More critically, that northern property is locked under a 2016 **Covenants and restrictions** with the FDEP due to lingering **ground water contamination**—specifically Vinyl Chloride and **Di-Choloro-Ethylene**. If you grant this enclave certification, and clear the path for residential development, how will stormwater and subsurface runoff from that contaminated site be managed safely?

**Finally**, we cannot ignore the troubling history of **Senate Bill 686**. The statute changes **all** read like hyper-specific "special legislation" crafted for **private** interests rather than the general public. The sudden shift from 'parcel' to 'parcels,' drastically expanding contiguous land exemptions across bodies of water, and reducing the surrounding development threshold from 75% to 50% seem specifically tailored to fit this exact acreage. Along with a convenient retro-active qualification date tied to the timing of the adjacent Duval zoning approvals, and an unusual sunset date of said changes of January 1 2028. The strategy is obvious: secure enclave status now, buy time to negotiate with the FDEP on the northern parcel, and file the remaining Dee-Dot acreage before the statute expires.

Commissioners, do not let local authority be stripped by a **manufactured** application. Demand true proof of bona fide agriculture, enforce accurate boundary redraws, protect our water, and **deny** this certification. **Thank you**

### Petition Text

#### The Issue: Protect the Future of St. Johns County

St. Johns County is facing one of the most significant land-use decisions in its history.

The proposed Enclave development is not simply another neighborhood. It seeks Agricultural Enclave Certification, an expedited process that could allow a major development to move forward before many of the most important questions have been fully answered.

This petition is not about opposing growth. Growth is inevitable, and when it is responsibly planned, it can strengthen a community.

This petition is about ensuring that growth is transparent, accountable, and supported by infrastructure before irreversible decisions are made.

Residents deserve to know how this proposal will affect traffic, schools, emergency services, flooding, water resources, wildlife habitat, and quality of life before development rights are expanded—not afterward.

St. Johns County has spent decades becoming one of Florida's most desirable places to live. Decisions of this magnitude should be made carefully, openly, and with meaningful public participation.

#### Why We Are Asking the County to Slow Down

##### 1. This proposal deserves a full public review before expedited approval.

Agricultural Enclave Certification is a significant decision that could shape thousands of acres for generations.

Before moving forward, residents believe the county should have complete information available, including detailed traffic analyses, infrastructure planning, conservation strategies, stormwater management, emergency service impacts, school capacity, and enforceable public commitments.

The public should have the opportunity to review these details before major development rights are granted.

##### 2. The long-term impacts could be enormous.

The application includes more than 4,400 acres, making it one of the largest remaining undeveloped tracts in northern St. Johns County.

Even at approximately one home per gross acre, the project could ultimately accommodate thousands of homes and many thousands of additional residents.

That means substantially more vehicles on roads that are already heavily traveled, increased demand for schools, utilities, emergency services, parks, and other public infrastructure.

The scale alone warrants extraordinary public scrutiny.

##### 3. Our roads are already under significant pressure.

Residents experience congestion every day. Traffic regularly affects

- Nocatee Parkway
- U.S. Highway 1
- Palm Valley Road
- Race Track Road
- Access to A1A and the beaches
- Davis Park during youth sporting events

Adding thousands of additional homes without first ensuring that transportation infrastructure can safely accommodate future demand could significantly increase travel times throughout northern St. Johns County.

Traffic is more than an inconvenience. It affects emergency response times, hurricane evacuations, school transportation, local businesses, and families trying to get to work, school, sporting events, and home.

#### 4. Infrastructure should come before growth—not after it.

Responsible growth requires roads, schools, utilities, drainage systems, emergency services, and parks to keep pace with development.

Residents should not be asked to assume these needs will eventually be addressed.

Major public infrastructure commitments should be clearly identified, adequately funded, and legally enforceable before expedited approval is granted.

#### 5. Once open space is lost, it is gone forever.

Large undeveloped areas provide important wildlife habitat, natural flood storage, groundwater recharge, and ecological connections that become increasingly valuable as surrounding development continues.

These lands also help support the resilience of our community during heavy rainfall and major storm events.

Once they are fragmented or developed, these natural functions cannot easily be restored.

#### 6. Residents deserve transparency.

Before approving a project of this magnitude, residents believe all statutory requirements should be independently verified and all supporting studies should be made available for meaningful public review.

Questions about agricultural eligibility, traffic impacts, environmental impacts, infrastructure capacity, and long-term public costs deserve careful evaluation through an open and transparent process.

Public confidence depends on complete information—not assumptions.

#### 7. Responsible growth protects future generations.

This decision is about far more than today's traffic. It will shape St. Johns County for decades.

Future residents will live with the roads we build, the schools we fund, the neighborhoods we create, the natural resources we preserve, and the quality of life we leave behind.

Growth should occur thoughtfully—not simply because it can.

#### Our Request

We respectfully ask the St. Johns County Board of County Commissioners to deny or postpone Agricultural Enclave Certification until:

- All required studies have been completed and released to the public.
- Traffic impacts have been fully evaluated.
- Infrastructure capacity has been independently reviewed.
- Emergency services, school capacity, drainage, flooding, and environmental impacts have been thoroughly analyzed.
- Conservation commitments have been clearly defined.
- Residents have had a meaningful opportunity to review the information and participate in the decision-making process.

#### Please Stand With Us

This petition is not anti-growth. It is pro-responsible growth. It is pro-transparency. It is pro-accountability. It is pro-public participation.

St. Johns County deserves development that respects existing residents while planning responsibly for future generations.

If you believe growth should be supported by adequate infrastructure, careful planning, and meaningful public input, please sign this petition and share it with your family, friends, neighbors, and community organizations.

Together, we can encourage thoughtful decisions that protect the character, safety, environment, and quality of life that make St. Johns County one of the best places to call home.

## ENCERT 2026-01: BR4700 Agricultural Enclave Certification

### *Questions for the Record*

Submitted August 19, 2026

Certification requires the Board to determine that the property satisfies the statutory definition of an agricultural enclave in § 163.3164(4), Florida Statutes. The questions below concern elements for which the present record appears to leave material factual or legal issues unresolved.

**Two dates govern.** If the Board does not approve or deny within 90 days of the July 1 application (on or about September 29, 2026), the property is certified by operation of law. A denial requires issuance in writing with detailed findings of fact and conclusions of law.

The record's key perimeter figures. Total perimeter: 58,166.76 feet (Exhibit 2; Exhibit 8). For the 75% designation test, County staff reports 84.53%; the applicant's Exhibits 6 and 10 report 84% ( $49,101.27 \div 58,166.76 = 84.41\%$ ). For the 50% existing-development test, the applicant counts the East (16,131.40 ft) and South (13,464.14 ft) segments, totaling **29,595.54 feet, or 50.88%, presented as "51%"** (Exhibit 8; Exhibit 2, Line Certification). Staff reports **50.72%**, implying approximately 29,502 feet, without disclosing its numerator. The 50% floor is 29,083.38 feet, so the margin above failure is roughly **419 feet (staff) to 512 feet (applicant)** out of eleven miles of boundary.

#### **Inquiry No. 1: The 50% requirement, § 163.3164(4)(c)1.b.**

---

The statute requires that "at least 50 percent of such parcel or parcels is existing industrial, commercial, or residential development." The State Legislature used "their perimeter" for the 75% test, but "such parcel or parcels," meaning the surrounding parcels, for the 50% clause; the applicant and staff nonetheless calculated 50% of BR4700's own perimeter. The statute took effect July 1, 2026, and no court has construed this language. The Senate Rules Committee staff analysis of CS/CS/CS/SB 686 (Feb. 25, 2026), a persuasive aid rather than statutory text, independently describes the 50% change as applying to the adjacent parcels, stating that the committee acted to "reduce the enclave prerequisite for adjacent parcels to be 75 [percent] developed to 50 percent" and, of the parallel pathway, that "at least 50 percent of those parcels are existing development." There is no current meaningful development on 11,047 acre parcel on the western boundary. The enacted text controls; the residents ask the County to explain its contrary denominator.

**Question 1.** What does "at least 50 percent of such parcel or parcels" measure? If it measures the surrounding parcels, why was 50% of BR4700's perimeter calculated instead, and what statutory language authorizes that denominator?

**Question 2.** Identify the surrounding parcels relied upon under (c)1.b. and produce the calculation demonstrating that at least 50 percent of those parcels consists of existing industrial, commercial, or residential development. Has that calculation been performed?

**Question 3.** Applicant Exhibit 8 counts 29,595.54 feet of existing-development perimeter out of 58,166.76 feet (50.88%, which the applicant rounds to 51%), and the surveyor's Line Certification in

Exhibit 2 treats 100% of the 16,131.40-foot East line and 100% of the South lines as existing development. Staff reports 50.72%. State the exact numerator, in feet, used by staff, and identify each perimeter segment or parcel accounting for the approximately 93-foot difference between the applicant's 29,595.54 feet and staff's figure.

**Question 4.** Staff's analysis treats the Eastern and Southern perimeter as existing development in reaching 50.72%. Property Appraiser records classify five Roscoe Boulevard parcels (0684400060, 0629200000, 0636000000, 0636000030, and 0641400000; approximately 969 feet of combined frontage) as vacant residential, vacant commercial, or Rivers, Lakes and Submerged Land. For each parcel: identify the existing industrial, commercial, or residential development relied upon to treat it as developed under (c)1.b.; identify the definition of "development" (see § 380.04, Florida Statutes) that staff applied; state whether any frontage associated with these parcels was excluded from staff's 50.72% figure; and state the resulting percentage if frontage lacking qualifying existing development is excluded. Because the East perimeter is evaluated across the Intracoastal Waterway under the flush-left paragraph of § 163.3164(4), state also how that provision was applied to any counted parcel that is itself classified as submerged land, and which upland parcel across the water qualifies for that segment. (By the residents' approximate arithmetic, excluding the identified frontage would place both the applicant's and staff's figures below 50%.)

**Question 5.** The western perimeter is qualified largely through City of Jacksonville designations. For purposes of § 163.3164(4)(c)1.b., what does "the local government" mean when an adjacent parcel lies in another jurisdiction, and what statutory basis permits another local government's zoning and future land use maps to satisfy that requirement in a St. Johns County certification?

## **Inquiry No. 2: Bona fide agricultural operation, § 163.3164(4)(b)**

---

The statute requires five years of continuous use for bona fide agricultural purposes as defined by § 193.461, good-faith commercial agricultural use. The residents acknowledge that the record contains operational evidence, not merely an agricultural tax classification: a Property Appraiser letter; owner affidavits; a timber-sales summary (Exhibit 5.4, submitted through the Exhibit 5.3 supplemental affidavit, though not accompanied by settlement statements, mill receipts, harvest contracts, or parcel-level allocations) showing sales in 2021, 2022, 2025, and 2026; and two February 2020 Callahan Timber forest-management plans. The residents also recognize that commercial forestry does not require a timber sale every year. The issue is whether the record establishes that the certified parcel or parcels remained in continuous, bona fide commercial agricultural use throughout the required five-year period, including 2023 and 2024, when the timber-sales summary shows no harvest.

**Question 6.** What evidence establishes the commercial forestry activity occurring during 2023 and 2024, including planting, reforestation, site preparation, thinning, prescribed management, maintenance, timber cruising, harvest preparation, or other commercial forestry operations, and what evidence ties those activities to the parcel or parcels being certified?

The two February 2020 plans describe tracts of **2,472 acres (9 parcels)** and **2,255 acres (16 parcels)**, with parcels appearing on both lists. The record contains no reconciliation of those tracts to the certified 4,462 acres and 21 parcels, and no updated plan despite the supplemental affidavit's statement that the plans are "periodically updated."

**Question 7.** Beyond the agricultural tax classification, what did staff independently verify? State the dates of the aerial imagery staff reviewed, the observable forestry or other commercial agricultural activity that imagery establishes during the statutory period, and the precise five-year period staff applied under § 163.3164(4)(b).

**Question 8.** Identify which of the 21 certified parcels are covered by each February 2020 Forest Management Plan, and the evidence establishing bona fide agricultural use of any certified acreage covered by neither plan.

### **Inquiry No. 3: The January 1, 2025 snapshot**

---

The definition applies to a parcel or parcels that met every criterion “as of January 1, 2025.” Two categories of record evidence seem to be unproven.

*First*, Official Jacksonville records establish that Ordinance 2024-342-E was finally adopted June 25, 2024, but do not state the effective date of the resulting Future Land Use Map amendment. Section 8 of the ordinance provides that the amendment became effective 31 days after the state land planning agency notified Jacksonville that the adopted amendment package was complete, unless timely challenged, in which event effectiveness awaited a final compliance order. The certification record contains the ordinance and City staff materials but not that completeness notification. The western segment is necessary to the applicant's 75% calculation; without it, the applicant's east and south segments total only approximately 50.88% of BR4700's perimeter.

*Second*, the certified boundary derives from a sketch dated June 18, 2026, whose general notes state “THIS IS NOT A SURVEY,” and it differs materially from the deeds. The July 22, 2025 special warranty deed (O.R. Book 6189, Page 522) conveys, among other lands, all of Section 6 and fractional Section 5, with a western boundary running 21,252.58 feet along the county line; the certified description covers only portions of Sections 5 and 6, with a western boundary of 19,505.73 feet. The 21 parcels' combined GIS acreage (approximately 4,569 acres) exceeds both the certified 4,462.09 acres and the 4,480-acre statutory maximum. The title report's chain of title (Exhibit 4.1) also lists multiple source instruments, including a warranty deed at O.R. Book 2597, Page 1931 that post-dates the 1994 Trustee's Deed, while the Owner Affidavit attributes the entire property to the Trustee's Deed alone.

**Question 9.** Produce or identify the Florida Commerce completeness notification for Jacksonville Amendment 23-4ESR / Application L-5861-23A / Ordinance 2024-342-E, state the date Jacksonville received it, and identify any timely challenge and its disposition. What date does the County find that the Multi-Use Future Land Use Map designation became legally effective? If it was not legally effective as of January 1, 2025, does staff agree that the western segment cannot be counted under §163.3164(4)(c)1.b. and that the 75% perimeter requirement is not satisfied?

**Question 10.** Identify the precise 4,462.09-acre legal description being certified and the record evidence establishing that this same land, in this same configuration, constituted the “parcel or parcels” that satisfied every element of § 163.3164(4) as of January 1, 2025, including the recorded instrument through which each of the 21 parcels traces to Estuary, LLC as of that date. If the certification area was carved from the larger holdings described in the July 2025 deed, what establishes that the 4,462.09-acre certification parcel itself existed, in that configuration, and satisfied the statute on January 1, 2025?

#### **Inquiry No. 4: What certification permits**

---

The applicant proposes 1.0 unit per gross acre: approximately **4,462 homes**. That number appears nowhere in the certification itself. Once certified, § 163.3162(4)(e) entitles the owner (and, because certification attaches to the land, presumably any successor) to submit plans for single-family residential housing at the density of adjacent development; the staff report identifies the adjacent New Town (Nocatee) designation at 6 units per acre and states the resulting maximum: **26,772 units**. The statute permits final approval to be administrative, prohibits the County from requiring a process longer than 180 days, and prohibits the County from requiring further quasi-judicial review or public hearing. This certification hearing is the public decision point provided by this statutory process. The residents therefore ask the following before any vote.

**Question 11.** The staff report recites the applicant's statement that it "will not exceed 1.0 residential units per gross acre." Is that representation legally binding on the applicant and its successors for purposes of certification and any subsequent development plans under § 163.3162(4)(e), and if so, by what instrument? If it is not binding, the residents ask the Board to acknowledge on the record that it is being asked to certify eligibility for up to 26,772 units.

**Question 12.** Staff found that all public facilities are not presently available, so § 163.3164(4)(d) rests entirely on the applicant's offer (Exhibits 9.1–9.3) to enter binding proportionate-share agreements. What residential density or unit count will be used in determining the applicant's proportionate share for each public service: the 4,462-unit proposal, or the up-to-26,772-unit entitlement? The JEA capacity letter in the record addresses a scenario of up to 1.0 unit per gross acre. If subsequent development plans may lawfully exceed that density, will the proportionate-share obligations and service-capacity determinations be recalculated for the higher intensity, and at what point does the offer ripen into a binding obligation?

Finally, whatever interpretations the Board adopts on all of the questions above, the residents ask that they be stated as **written findings, in the alternative where multiple independent grounds exist**, so that no single interpretation carries the decision on review.

**A note on accuracy and good faith.** *The application, exhibits, supplemental filings, and staff report comprise several hundred pages, which the residents reviewed to the best of their ability; questions deemed answerable from that record have been removed from this submission. Factual statements are made in good faith and drawn from the record wherever possible; resident-derived measurements are approximate; interpretations are offered as argument, not settled law; nothing is intended as an accusation of wrongdoing by staff or the applicant; and the residents welcome correction of any error on the record.*

## ENCERT 2026-01 | N. Palm Valley Road

### Open Questions for Board, Staff, and County Attorney Review

*These are unresolved legal or factual questions, not conclusions. They should be resolved on the record before certification.*

- 1. January 1, 2025 statutory date.** §163.3164(4) defines an agricultural enclave as parcels that, “as of January 1, 2025,” satisfy the listed criteria. Some supporting maps and other materials are dated later. The Board should ask staff to explain how the January 1, 2025 date was applied to each criterion and identify the historical data supporting criteria dependent on land-use designations, development status, or other conditions on that date.
- 2. 50% existing-development test.** §163.3164(4)(c)1.b expressly measures the 75% test by enclave perimeter, then separately requires at least 50% of “such parcel or parcels” to be existing development. The second clause does not specify a denominator. It could refer to the developed share of the adjacent parcels, such as by acreage, rather than their contribution to the enclave perimeter. Staff reused perimeter. What is the legally correct measure?
- 3. 50.72% calculation.** If perimeter is the correct measure, staff reports 50.72%, only 0.72 percentage points above the threshold. The Board should see the underlying boundary data, measurements, and calculation methodology needed to independently evaluate that result.
- 4. “Undeveloped” requirement.** The statute requires “unincorporated, undeveloped parcel or parcels” as of January 1, 2025. Applicant records show two residences and stables on parcel 067310-0000 and a residence built in 2016 on parcel 067320-0000. The staff report does not explain how these existing improvements are consistent with the statutory “undeveloped” requirement.
- 5. Reliance on Duval County approvals.** About 19,505 feet of the western boundary is counted using Jacksonville zoning and FLUM approvals. The statute refers to parcels designated by “the local government” on “the local government’s” maps, not “a local government.” It expressly addresses looking across rights-of-way, water bodies, and canals, but not jurisdictional boundaries. Can Jacksonville zoning and FLUM approvals satisfy “the local government’s” map requirement for this St. Johns County certification?
- 6. Estuary PUD and large-enclave density.** §163.3164(4)(e) requires surrounding residential development that “will result” in at least 1,000 residents per square mile at buildout. Staff uses Estuary’s maximum 10,142-unit entitlement over 11,047.38 acres. Estuary is mixed-use, and Jacksonville Code §656.302(d) generally applies residential and other district provisions to the portions of a PUD devoted to those uses. What legal basis supports treating the entire adjoining PUD boundary as “authorized residential development,” and does a maximum entitlement establish the required density “at buildout”?
- 7. Acreage/property being certified.** The 21 listed County GIS parcel acreages total 4,568.95 acres, while Exhibit 2 defines a 4,462.09-acre area. The applicable large-enclave cap is 4,480 acres. The record should identify precisely what land is being certified and reconcile the 106.86-acre difference.
